About the Committee:
The mission of the SAME Young Members (SAME members who have not yet reached their 40th birthday) is to be their advocate, engaging young member support of SAME’s strategic plan through outreach, training, networking and recognition. The committee’s primary goals are:

- To provide year-round volunteer opportunities, training events and socials for young membership.
- Organize a leadership workshop to provide young members with a resource for building leadership skills and experiences.
  - Aspects of planning the leadership workshop include: Identifying and confirming a volunteer speaker, booking a location, provide snacks, formalizing an agenda and working with Programs Committee to execute.
- Work with the College Outreach Committee to organize SAME booths at college career fairs.

How you can help:
The Young Members Committee is most successful with the help of hands-on volunteers who are interested in helping acquaint the young members with the benefits of Post membership. Members who are interested in supporting existing initiatives or have ideas for expanding outreach to young members, please contact Bryanna Aldridge.
