U.S. Army Corps of Engineers, Vicksburg District – Future Work

Mobile District Post Industry Day
December 10, 2015
The Vicksburg District encompasses 68,000 square miles in Mississippi, Louisiana, and Arkansas. Seven major river basins fall into our jurisdiction including the mighty Mississippi, the Red, Ouachita, Pearl, and Yazoo Rivers. The District employs a diverse profile of professionals, over 1000 strong, divided between our Vicksburg, Mississippi headquarters and eleven field offices spread over all three states. Established in 1873, the District is a center of expertise for many engineering and environmental solutions and has been recognized as Vicksburg’s second oldest business. The District operates and maintains $2.3 billion in real property and projects.

Including:

9 watersheds in Arkansas, Louisiana, and Mississippi including Bayou Meto, Big Black, Boeuf Tensas, Homochitto, Mississippi, Ouachita, Pearl, Red, and Yazoo
7 Mississippi River Ports handling over 8.5 million tons of cargo
5 Red River Ports handling over 1 million tons of cargo
12 locks and 9 dams on the Pearl, Red and Ouachita Rivers
3 Power plants capable of generating 168,500 kilowatts of electricity
10 Lakes with 1,673 miles of shoreline
21 Pumping plants
478 Flood control structures
1,252 miles of navigable channel
1,910 Miles of levees, including 460 miles along the Mississippi River
450,603 Acres of project and mitigation lands are managed for forestry and wildlife enhancement
146 Recreation areas with 2,772 campsites and 1,529 picnic sites with estimated total visits of 8.1 million

John W. Cross
Colonel, Corps of Engineers
