**Greater Kansas City Post  
Second Annual Industry Day  
Education & Training Workshop  
Feb. 2-3, 2010**

[Greater Kansas City Post](#)

[Event Flier](#)

**REGISTRATION NOW OPEN!**

**Education and Training Workshop, University of Missouri–Kansas City  
Feb. 3, 7:30 a.m.-4 p.m.**

The mission of three great Kansas City institutions — Society of American Military Engineers, University of Missouri–Kansas City and the U.S. Army Corps of Engineers (USACE) — is to bring a high-quality education and training program to the engineering community. There will be significant opportunities to learn about military and civil programs of the USACE, hear from local professors on interesting topics contributing to the community, and to promote individual companies. Both private and public sector information will be presented. District engineers from Kansas City, Mo., St. Louis, Omaha, Neb., and Tulsa, Okla., along with the Region 7 General Services Administration, will present program briefs.

**Social Event, Boulevard Brewing Company  
Feb. 2, 5-8 p.m.**

Founded in 1989, Boulevard Brewing Company will kick off the conference with a beer/wine tasting and appetizers. Conference attendees will have an opportunity to sign up for one-on-one sessions with the Kansas City District contacting officers and program managers. Signup is on a first-come basis.

Please visit the Greater Kansas City Post Web site, <http://www.samekc.org/>, for more information.

PDH Certificates will be issued for each technical session.

Free for students.

**Please RSVP by Jan. 22. Booth space is limited.**

**Register today!**

If you have questions, please contact:
