Dear High School Counselor:

The Arkansas Post of the Society of American Military Engineers (SAME) is pleased to announce the availability of college scholarships. The Arkansas Post will offer a minimum of one $2,000.00 scholarship to superior graduating high school seniors. Competition is open to high school students throughout Arkansas. Preference will be given to students who have previously attended/completed one of the SAME Engineering Camps. Attached is the 2020 Scholarship Application Form.

Your students qualify for these scholarships by meeting the following criteria prior to award of the scholarship:

1. Application to a college offering a 4-5 year accredited architectural or engineering curriculum or to a college with a cooperative program to transfer credits to such a school prior to applying for this scholarship.

2. Acceptance by an accredited school or cooperative program in architecture or construction-related engineering programs (e.g. civil, structural, electrical, mechanical, geotechnical, environmental etc.). Individuals pursuing engineering degrees that are not construction-related (e.g. computer, aeronautical, bio-medical, chemical, petroleum, etc.) are not eligible for this scholarship. If, for any reason, the initially selected students are not accepted by a qualifying program, other qualified applicants will be considered. A certified acceptance letter from the registrar of the college must be mailed to the scholarship committee prior to award.

3. United States citizenship or a permanent visa to the United States.

You, the counselor, or the school principal will be required to supply the student’s grade point average for the 9th through the first semester of the 12th grade. The following additional items make up the scholarship application package submitted by the student:

- Application Form
- High School Transcript
- A letter of recommendation from a mathematics or science teacher. Letters of recommendation from employers, coaches, principals, ministers or other teachers may be sent in with the application, but are not required.
- A 200 word essay explaining why the student wishes to study architecture or construction-related engineering and why receiving this scholarship is critical to achieving their continuing educational goals.

The scholarship application package must be received no later than April 6, 2020. Selections will be made and successful students notified by May 25, 2020. Acceptance by an accredited college must be furnished to the scholarship committee by June 22, 2020.

Please address any questions regarding these scholarships to Al Rein at 501-340-1065 (Albert.G.Rein@usace.army.mil). Thanks for your help in advertising these opportunities, ensuring our future engineers gain valuable financial assistance and are afforded the chance to make a difference in our communities in the future.

Sincerely,

[Signature]

2020 SCHOLARSHIP APPLICATION FORM
FOR THE STUDY OF ENGINEERING OR ARCHITECTURE

1. NAME: ___________________________________________ (Last)  (First)  (Middle)

Mailing Address: ____________________________________________
(Number Street) (City/State) (Zip)

Telephone number: __________________________ Date of Birth: __________/________/________
(X/year) (Day) (Year)

City/County/Country of Birth: __________________________

I am a United States citizen or hold a permanent visa to the United States. ___ Yes ___ No

I was a previous SAME Engineering Camp attendee. ___ Yes ___ No

2. The following should be completed by the applicant:
   a. List colleges/universities in which you are interested, in order of preference.

<table>
<thead>
<tr>
<th>NAME</th>
<th>DATE APPLIED</th>
<th>DATE ACCEPTED</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

   b. Construction-related Engineering or architecture discipline in which you show the strongest interest and intend to pursue in your course of study:

   ____________________________________________________________

   c. Work Experience/Community and School Activities. List your work experience (include part-time/summer jobs since entry into 9th grade) and your school and community activities in order of interest (clubs, sports, student government, church, volunteer, scouts, etc.).

<table>
<thead>
<tr>
<th>EMPLOYER</th>
<th>DUTIES/DATES OF EMPLOYMENT</th>
</tr>

</tr>
</tbody>
</table>

c. Essay. Type and attach a short essay not to exceed 200 words explaining why you wish to study engineering or architecture related studies and how receiving this scholarship is critical to achieving your educational goals.

f. Attach a single letter of recommendation prepared by a teacher of mathematics or science. Attach a second letter from a teacher of your choice. A third letter from an employer is optional.

3. The following should be completed by the principal or academic guidance counselor:

a. Applicant's un-weighted Grade Point Average (9th, 10th, 11th & 1st Semester 12th grades)

   Total Average: 
   Math and Science Average: ____________
b. Grading Scale. If your grading scale is other than 94-100 A; 85-93 B; 75-84 C; 65-74 D, and below 64 F, please indicate.

A = __________ B = __________ C = __________ D = __________ F = __________

c. Principal's or Academic Guidance Counselor's comments and/or recommendation: (optional)

________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

Signature of Principal (Guidance Counselor) ___________________________ Date ___________

Principal's Name (Guidance Counselor) ___________________________ Telephone Number ___________

Name of High School ___________________________

High School Mailing Address ___________________________ City ___________ State ___________ Zip ___________
4. The applicant should sign the following:

I, the undersigned, do hereby grant permission to the Society of American Military Engineers (SAME) Scholarship Committee to release information contained herein to other potential sources of scholarship assistance for engineering or architecture studies.

If awarded the SAME Scholarship, I grant SAME permission to make appropriate local press releases.

By submitting this application, I authorize my high school principal to make available to the SAME Scholarship Committee information concerning my academic records.

Signature of the Applicant ____________________________ Date ____________

5. Mailing instructions - mail completed applications to:

Scholarship Committee Chairperson
The Society of American Military Engineers
c/o U.S. Army Corps of Engineers
ATTN: Al Rein
700 West Capitol Avenue
P.O. Box 867
Little Rock, Arkansas 72203-0867

Completed applications must be received no later than April 6, 2020. Selection will be made and successful students notified by May 25, 2020. Acceptance by an accredited college must be furnished to the Scholarship Committee by June 22, 2020.

Enclosures:

Essay
Teacher’s Letter of Recommendation (2)
Employer’s Letter of Recommendation (Optional)
Copy of Transcript to include all ACT, PSAT or SAT test scores
January 24, 2020

Dear High School Counselor:

The Society of American Military Engineers (SAME) offers engineering and construction summer camps for high school students that are interested in pursuing a degree in engineering or associated fields. These camps are hosted by the U.S. Air Force Academy (USAFA) Camp at Colorado Springs, CO, U.S. Air Force Camp at Scott Air Force Base IL, the U.S. Marine Corps (USMC) Camp at Camp Lejeune, NC, the U.S. Army Camp at Vicksburg, MS, and the US Navy Camp at Port Hueneme, CA.

The Arkansas Post of SAME is pleased to announce the availability of sponsorships for these camps. One student may be competitively selected for each camp. The Arkansas Post will pay all of the camp fees and all of the students’ airfare and other transportation costs. Information, eligibility, and the application process for these camps can be found on the SAME website (http://www.same.org/STEMCAMPS). The application process is online and all students will be applying through this new portal. They will first create a Camper Account and then they will register for the particular camp that they are interested in attending. As part of the process, they will pick the Post that they wish to sponsor them (designate the Arkansas Post). In addition to the SAME eligibility requirements, the Arkansas Post requires any student to be at least 15 years old prior to the first day of travel. The camps have different application deadlines, so pay close attention to those dates and make sure your application is submitted before the deadline.

Please address questions regarding camps to Al Rein at 501-340-1065 (Albert.G.Rein@usace.army.mil). Thanks for your help in advertising these unique opportunities which will help prepare these future engineers and architects to make a difference in our communities.

Sincerely,

Jan Hicks
