January 23, 2019

Dear Educators and Counselors:

As the Education and Mentorship Committee Chair for the Cape Fear Post of The Society of Military Engineers (SAME), I want to draw your attention to an excellent opportunity for your high school students aspiring to become engineers. SAME sponsors one-week, summer camps that introduce high school students to the engineering profession. The Cape Fear Post would like to sponsor one (1) student to attend one of these camps. This sponsorship covers 50% of the student’s tuition cost ($300 of $600) and travel fees to attend this camp. The student will be responsible for paying 50% or $300 of the total tuition cost.

Please note that the Application Deadlines for the SAME Summer Camps (US Army – Vicksburg, USMC – Camp Lejeune, USAF Academy, USAF Scott AFB, US Navy STEM Engineering and Construction Camp – Port Hueneme) are now **ALL March 15, 2019**. This is the date that the potential campers have to submit their applications through the SAME National portal. More information on this opportunity is available at the below website along with application forms.

https://www.same.org/Camps/application-process

SAME is the premier professional engineering association in the United States for connecting architects, engineers and builders in the public sector and private industry, uniting them to improve individual and collective capabilities for national security. SAME’s goal is to unite Architect, Engineering, and Construction entities and individuals in the public and private sector to prepare for – and overcome – natural and manmade disasters, acts of terrorism and improve security at home and abroad.

I appreciate your assistance in this endeavor, and if you have any questions, please call me at (910) 251-5673.

Sincerely,

John R. Lenfestey, P.E.
Education and Mentoring Committee SAME, Cape Fear Post
