Doing Business with the Department of Energy Office of Environmental Management

Anne Marie Bird
Small Business Program Manager
Office of Environmental Management
Consolidated Business Center
Provides Business and Technical Resources to Environmental Management (EM) Customer Sites

- Environmental Management Acquisition Center
- Carlsbad Field Office (CBFO)
- Portsmouth/Paducah Project Office (PPPO)
- Small Sites and other EM Sites
  - Uranium Mill Tailings Remedial Action Project (MOAB)
  - Energy Technology Engineering Center (ETEC)
  - West Valley Demonstration Project (WVDP)
  - Separations Process Research Unit (SPRU)
  - Los Alamos (EM Work)
  - Oak Ridge (EM Work)
  - Pre-award Support to other EM sites (Savannah River, Idaho, Richland)

- EM-wide Activities (i.e., Commercial Radioactive Waste Disposal, Radioactive Waste Treatment, Multiple-Site Financial Assistance Support, Strategic Sourcing)

Provides Procurement Support to DOE- HQ (EM)

In collaboration with Honeywell’s Supply Chain Management Center, EMCBC is leading seventeen EM field offices in Strategic Sourcing, an enterprise-wide effort to leverage EM spend and initiate more robust, integrated savings across EM sites; resulting in approximately $23.9M in FY2015 EM strategic sourcing savings.
Major awards to small business in FY2015:

- $138.8 million contract containing Firm-Fixed-Price contract line items for Paducah Gaseous Diffusion Plant Infrastructure Support Services
- $123.9 million contract containing Firm-Fixed-Price contract line items for Oak Ridge Transuranic Waste Processing Center Services
- $44.5 million Fixed-Price-Award-Fee contract for Hanford 222-S Laboratory Analysis and Testing Services

Additional FY2015 small business awards:

- $4.3 million contract for the West Valley Demonstration Project Probabilistic Performance Assessment
- $4 million ID/IQ contract for technical support services
- $4 million ID/IQ contract Program for facilities and infrastructure/asset management services and program/project management and analytical services
- $4 million ID/IQ contract under the SBA’s 8(a) Program for technical support services to the EMCBC and EM-Los Alamos
- $4 million ID/IQ contract under the SBA’s 8(a) Program to assist in the development and execution of a Nuclear Facility Documented Safety Analysis for EM operations facilities at LANL
- $3.9 million Firm-Fixed-Price contract for demolition services of the East Tennessee Technology Park (ETTP) K-732 switchyard
- $3.5 million Firm-Fixed-Price and time and material ID/IQ contract for strategic planning, acquisition, site transition, and planning and integration support
EM-HQ
- Information Technology Support ($50M - $60M)
- DOE LLW MLLW Treatment Services ($25M Ceiling)

Small Sites
- Moab Remedial Action Follow-on

Idaho
- Idaho Cleanup Project (ICP) Core Procurement ($1B+)
- Idaho Calcite Disposition Project (CDP) and Idaho Spent Fuel Facility (ISFF) ($100M - $300M)
- Decontamination and Decommissioning (D&D) ($50M - $100M)

PPPO
- Operation of Depleted Uranium Hexafluoride (DUF6) Conversion Facilities Project ($400M - $600M)
- Portsmouth Infrastructure Support Services ($100M - $200M)
- Paducah Deactivation ($400M - $600M)

LANL
- Los Alamos Legacy Cleanup Completion Project (LCCP) - Post Fiscal Year 2016 Contract(s) ($1B+)

Hanford
- Richland Acquisitions Post Fiscal Year 2018

Savannah River Site
- Savannah River Master Acquisition Plan ($1B+)
- Savannah River Site Liquid Waste

Paducah Gaseous Diffusion Plant (PGDP) Deactivation

WELCOME TO THE HOME PAGE FOR PADUCAH GASEOUS DIFFUSION PLANT (PGDP) DEACTIVATION PROJECT

The U.S. Department of Energy (DOE) is planning for deactivation activities at the Paducah Gaseous Diffusion Plant (PGDP) in Paducah, Kentucky. This procurement will result in a Task Order under the DOE Environmental Management Nationwide Multiple Award Indefinite Delivery Indefinite Quantity (NMAI). Unrestricted Contracts that were awarded December 16, 2010.

The PGDP or Paducah Site is located on a Federal reservation in Western Kentucky, approximately 10 miles west of Paducah, Kentucky, and 3.5 miles south of the Ohio River. The PGDP is situated on 3,553 acres divided as follows:
- 644 acres within a fenced limited security area;
- approximately 822 acres of uninhabited area surrounding the plant area; and
- 1,985 acres licensed to the Kentucky Department of Fish and Wildlife as part of the West Kentucky Wildlife Management Area.

The PGDP is a government-owned uranium enrichment plant that was constructed in the early 1950’s and operated by the DOE and its predecessor agencies for the purpose of manufacturing enriched uranium for the fabrication of fuel assemblies to support commercial and military nuclear reactors and to support weapons development activities. PGDP includes Hazard Category 2 Nuclear Facilities based on the uranium inventory.

The selected contractor will ultimately be responsible for the management, integration and execution of the deactivation and post-GDP shutdown remediation activities. The requirements include, but are not limited to: Facility Transfer of the GDP from USEC to DOE including Safety Authorization Basis, Facility Deactivation and Maintenance, Utility Optimization; Waste Management; Project Management; Environment, Safety, Health, and Quality; Regulatory Compliance and Permits; and Safeguards and Security.
