ATXfloods Closures

Save yourself! Turn Around, Don’t Drown! If there’s water over the road, go back and find another route.

It is illegal to drive around barricades at a flooded low water crossing.

47 crossings currently closed [of 1940]

Metropia’s solutions enhance urban transportation system efficiency by influencing personal travel behavior decisions.

Personal Mobility Management

Metropia’s advanced platform allows travelers to discover and engage mobility options that optimize their travel and enhance their city’s sustainability.

Transportation Systems Management

Using proprietary algorithms and data analytics, Metropia’s Synergy platform provides a framework for agencies to collaborate, actively manage demand and enhance and monitor the transportation systems’ performance.
Why is Open Data Important to Us?

- Transparency
- Provides opportunities beyond ATXfloods to expand flood safety messaging
- Platform development
- Multilingual messaging
Thank You

You’ve been a wonderful audience
1. Rain falls into the gauge here

2. Instruments in the gauge measure the rain, then sends the measurement wirelessly to Hydromet

The gauge is solar powered
