NEWS FROM THE POST PRESIDENT . . .

I want to start this newsletter with a reminder of how much I appreciate our members. Our Post has been very busy and we were able to tell SAME National about all these activities. If we did not have support from you, our members, none of this would be possible.

As summer is nearing an end, I am looking forward to all the fall activities. We have the upcoming annual meeting this month at Fort Knox; the Golf Scramble in September at Quail Chase Golf Club in Louisville; and the Joint Engineering and Training Symposium (JETS) in November. We are in need of assistance at these events so invite a friend or associate to be involved in the Kentuckiana Post.

Our STEM committee has many new opportunities to discuss with the board in the upcoming meeting, one of which is the Future City program (http://futurecity.org/register). We as a Post will keep everyone apprised of these opportunities to mentor young people in your communities. It is a great opportunity for you and your company to be involved.

The Post is planning to support upcoming Wounded Warrior and active service member activities which include 5K runs, youth hunting events, and various other opportunities. Look for ways to help in your local communities. Be sure to let the Post know of these opportunities.

In closing, I sincerely hope your fall is as enjoyable as I am hoping your summer family time was. It is time for a new season, fresh start and hoping to see you all at the upcoming meetings and events.

Ms. Lee Carolan, Post President, KP-SAME
SUMMARY OF JUNE POST MEETING . . .

The SAME Kentuckiana June Post meeting was called to order at noon on Tuesday, 17 June 2014 in the cafeteria meeting room of the Mazzoli Federal Building. More than 60 attendees were on hand and participated in the Pledge of Allegiance and prayer.

USACE’s Keith Fleck, Project Engineer in the Operations Division Maintenance Section, and Ed Vincent, Structural Engineer in the Engineering Division Navigation Design Section, were the spotlight speakers with an update on Recent Repairs to Lock and Dam (L&D) 52 in Brookport, Illinois. Their informative presentation centered on lock history and facts, wicket sill issues, design solutions, fabrication of the wicket dewatering box, and wicket sill repairs.

Originally constructed in the 1920s, L&D 52 and 53 are the last low lift wicket dams left on the Ohio River and are slated to be replaced by Olmsted Lock and Dam in 2020. L&D 52 moves the most cargo tonnage in the nation. The dam is constructed of navigable pass wickets, chanoine weir wickets, bebout weir wickets, three bear traps, and a fixed weir. Project complexities addressed in the presentation included dam sections of varying heights and lengths, timber pile dam construction with minimal concrete reinforcement, dams not designed for dewatering, and an aggressive schedule to support navigation needs.

Karen Tenfelde,
Post Secretary

SUMMARY OF JULY POST MEETING . . .

Convening in the cafeteria meeting room in the Mazzoli Federal Building on Tuesday, 15 July 2014, Kentuckiana Post 1st Vice President Ray Frye started the monthly luncheon meeting by welcoming the 67 attendees and recognizing new members and guests. Elected Director Clay Kelly led the group in a Prayer and the Pledge of Allegiance.

As part of the announcements, Ray reiterated that the upcoming joint Kentuckiana Post/WEA/AWWA Meeting is scheduled for Thursday, 21 August 2014 at the Fort Knox Saber and Quill Club Bullion Room. He also provided another reminder about the September 4th Kentuckiana Post Golf Scramble and opportunities for firms to contribute. Clay Kelly advised the attendees that registration for the November JETS Conference had launched earlier that day and that the conference advertisement in the Military Engineer outlined all sponsorship opportunities.

Karen Tenfelde,
Post Secretary

Continued
STEM Committee Co-Chair Brittney Hyde had the honor of introducing two of the SAME AFA Engineering and Construction Camp participants sponsored by the Post in 2014 – Brycen Lacey and Raymond Pallazzo. Brycen and Raymond spoke about their camp experiences, including construction of concrete and balsa wood beams, a storage shed, and a water balloon launch.

Derek Henry, another STEM Committee Co-Chair, introduced speaker Joe Percefull, an Oldham County Middle School math teacher and Regional Coordinator for the Future City Competition in Kentucky. Future City is a national, project-based learning experience for students in 6th, 7th, and 8th grade to partner with an educator and engineering mentor to imagine, design, and build cities of the future. Students participating in Future City apply math and science concepts to real-world issues; develop writing, public speaking, problem solving, and time management skills; research and propose solutions to engineering challenges; and discover different types of engineering career options. During Mr. Percefull’s tenure, the region has grown from three to 26 teams competing in the Future City Competition held every January at the UK College of Engineering.

The competition consists of five components including virtual city design using SimCity software, a research essay on a specific engineering topic, a city narrative, a physical model, and a team presentation. The 1st place team in each region advances to National Finals held in Washington, DC.

The Kentuckiana Post is considering adopting the Future City Competition as our signature STEM activity. By providing engineering mentors to various teams for next year’s competition, we could increase the presence of Jefferson and Fayette County Schools in the Future City Competition.

Karen Tenfelde, Post Secretary
SUMMARY OF JUNE BOARD MEETING . . .

The Board meeting was called to order at 10:08 a.m., Tuesday, 17 June 2014, in the cafeteria meeting room in the Mazzoli Federal Building. President Lee Carolan welcomed everyone, including new Regional Vice President Rosemary Gilbertson, and chaired the meeting. The Meeting Agenda and Board Sign-In Roster were passed among the attendees.

Secretary’s Report
Secretary Karen Tenfelde had circulated the April Board Meeting minutes prior to the meeting for review. A motion was made and seconded to approve the Secretary’s Report. *Motion passed.*

Treasurer’s Report
John Allison reported that there was currently $40,583.01 in the Post checking account and no outstanding bills. John noted the $9,500 deposit for the JETS Icebreaker at Churchill Downs had been paid. A motion was made and seconded to approve the Treasurer’s Report. *Motion passed.*

President’s Report
Lee Carolan reported the following:

At the 20 May 2014 meeting of the SAME Board of Direction, three of the six Post Streamers were revised. Following is a summary of the revisions that will be implemented in 2014 and 2015:

- Leadership and Mentoring Streamer. The Board made the following changes and determined that they should be implemented in 2014.
  - Changed K-12 outreach from “engineering” to “STEM” consistent with the SAME focus on STEM.
  - Changed the element on sending Young Members to conferences from “JETC or a regional JETS” to “JETC or other education and training event hosted by a Post or other professional association,” consistent with more emphasis being placed on Post events rather than regional events due to the government travel restrictions.
  - Changed the “awarding of scholarships to deserving high school and college students” to “Support the education and professional development of one or more of the following groups in STEM: K-12 teachers and students, college students, Young Members or NCOs” to reflect the Board’s belief that college scholarships are not the only way for SAME to promote STEM careers. The revised element gives Posts more latitude in ways to promote STEM and broadens the element to SAME Young Members and NCOs.

- Emergency Preparedness and Infrastructure Resilience. The Board approved the streamer and determined that since it is a substantial revision of the current streamer that it not be required until 2015. The current streamer, which had little support from SAME Posts, is hereby rescinded. Posts will be given credit for accomplishments in 2014 and 2015 when they submit their nomination for the streamer in February 2016. Posts may also submit their nomination for this streamer in February 2014 in order to be eligible to receive a stipend to attend the TISP Critical Infrastructure Symposium planned for April 2015. The EP&IR Streamer will continue to be excluded from the Distinguished Post Streamer. Following a review of the streamer nominations in 2016, the Board will decided whether to once again require this streamer to be a Distinguished Post.
SUMMARY OF APRIL BOARD MEETING . . .

• Education and Training Streamer. Changes were approved by the Board for implementation in 2015.
  • Increasing the number of PDHs in the Required Element from 4 to 8 for Large and Medium Posts to place more emphasis on Posts providing continuing education.
  • Changing “develop and implement a program” to “assist” members in obtaining and maintaining professional licenses and certifications.
  • Add “wounded warriors” to the Desired Element on veteran transition assistance and adding “mentoring” to one of the ways to provide assistance.
  • Added a Desired Element to “co-sponsor a Continuing Education course, seminar or webinar with SAME HQ” to promote utilization of the SAME HQ investment and resources in continuing education.

• Relationships and Recognition. No change.

• Membership. The temporary change to the criteria implemented in 2014 due to the decline in overall SAME membership has ended. Posts must have an overall increase in both total membership and Public Sector membership in 2014 to win the Membership Streamer.

Lee Carolan picked up the 2013 streamers for the Post at the JETC conference breakfast.

At the request of Rosemary Gilbertson and Steve Skaggs, Mason and Hanger is assigning the Post website updates to two new contacts at their firm.

Committee Reports

Programs
  Co-Chairs Sean Click and Bill Nieport are lining up a substitute speaker for the July Post Luncheon. Details are still coming together for the Ft. Knox meeting in August. Other scheduled programs are identified on the Post website.

Education and Training
  This team is supporting Rosemary with the review of submitted JETS abstracts.

Fort Knox Field Chapter
  Co-Chair Rick Storm reiterated that COL Leonard will be available to support SAME at Ft. Knox in his new command. USACE Board Members were encouraged to help identify a Project Manager at Ft. Knox that could serve as the Ft. Knox Field Chapter Co-Chair. It is unlikely that a field chapter meeting will occur before the regularly scheduled Post Meeting 21 August 2014.

Emergency Preparedness and Homeland Security
  On behalf of the private sector working group, Clay Kelly reported on the Capstone 14 initiative and the eight states contiguous to the New Madrid seismic zone planning to participate in the simulation exercise.

Scholarship
  No Report.

Young Members
  No Report.
SUMMARY OF APRIL BOARD MEETING . . .

Membership
Co-Chair Lisa Wilson-Plajer had distributed the monthly membership report prior to the meeting. Membership continues to thrive with 488 Company and Agency Representatives and 199 Individual Members for a total membership of 687 (including 133 Young Members).

U of L Student Chapter
Steve Skaggs reported for Jason Cain that the U of L Student Chapter will be fairly inactive during the summer months. From previous meetings with U of L staff, the Post is considering purchasing copies of the PE review materials. Rosemary asked Steve to confirm how the materials are controlled and how many copies are needed.

Small Business
Co-Chair Steve Skaggs reported that the Committee had a successful teleconference regarding the 2015 Small Business Workshop (3 February 2015) and is planning an impressive rollout at the JETS. Minor tweaks to the schedule and program suggested in the 2014 conference surveys are being incorporated into next year’s program. There will also be no increase in fees or sponsorships over last year. The contract with the Marriott has been signed and all Workshop events will be held at the hotel.

Newsletter
No report. April Vance is spearheading a STEM section for future newsletters and will coordinate directly with Richard Petty.

Website
Welcome new Website Co-Chairs Eric Baker and David Stout of Mason and Hanger. Thank you for your assistance in keeping the Post website up to date.

Education and Mentoring Fund Management
No report.

STEM (Science, Technology, Engineering, and Mathematics)
Two of the Post’s sponsored campers will speak about their camp experiences at the July Post meeting.

Co-Chair Brittney Hyde reported on the success of the Wing Design Competition sponsored by the Institute of Aerospace Education. John Allison also congratulated the team on the lunch sponsorship for the Rose-Hulman students touring the Lock and Dam project in Louisville. John, Brittney, Jason Cain, and Lucy Schurr, a USACE Co-Op, spoke with the students on the tour.

Co-Chair April Vance talked about the Post partnering with the Future Cities program as volunteers, mentors, and judges. This exciting program will be our primary STEM initiative from September–January.

Golf Scramble
Steve Skaggs reported for Co-Chair Aaron Cooley that the annual Golf Scramble is scheduled for 4 September 2014 at Quail Chase. To date, $2,750 has been pledged by contributors. The towel and drink cart sponsorships are taken.
SUMMARY OF APRIL BOARD MEETING . . .

Public Relations
Co-Chairs Nikki Kelley and Marci Snyder are working on a social media program for the Post.

JETS
Clay Kelly reported that planning for the JETS is rolling along. RegOnline opens this week and sponsorship opportunities are being vetted to be published shortly thereafter. The JETS planning committee continues to meet monthly following the Kentuckiana Post meetings and via conference call the first Tuesday of each month. Volunteers welcome!

New Business
Volunteers from the Kentuckiana Post will be on hand for this summer’s ROTC graduation ceremonies at Ft. Knox. A motion was made and seconded to purchase six (6) $50 Amazon gift cards this year for the top engineering candidates in each class. Motion passed.

In her RVP role, Rosemary Gilbertson reported from her attendance at the National Board Meeting. Details are included in the June-July 2014 Post Leaders Newsletter. Of special interest is the push from SAME-HQ to move away in 2015 from the regional conferences, enhanced focus on local Post events, and efforts to bolster local involvement by federal employees.

Rosemary also revisited the America’s Watershed Initiative conference at the Galt House in Louisville 30 September – 2 October. While the Kentuckiana Post would like to organize and host an evening reception, especially since the attendees would largely mirror our membership, planning for the JETS does not allow time for the Post to take this on.

She then led discussion on possible candidates for the Emerging Leadership Workshop. Marci Snyder has a candidate from another region that will receive the nomination.

Steve Skaggs made a motion that the Board approve a $1,500 sponsorship again this year of the QDMA Youth Hunt. The motion was seconded. Motion approved.

Next Board Meeting
Note the new date for the August Board and Post Meetings at Ft. Knox – Thursday, 21 August 2014 at Saber and Quill. A motion was made and seconded to adjourn the meeting. The meeting concluded at approximately 11:23 a.m.

Karen Tenfelde,
Post Secretary
AUGUST MEETING: WEA-AWWA Joint Meeting

When: Thursday, 21 August 2014

Topic: “Fort Knox Utilities - The Privatization of Water, Wastewater & Storm Water Infrastructure”

Presenter: Mr. Jim Bruce, General Manager of Hardin County Water District No. 1
Mr. Brett Pyles, Operations Manager, HCWD1

Location: Bullion Room, Quill & Saber Facility, (Directions on last page of Flyer)
1118 Chaffee Avenue, Fort Knox, Kentucky

Time: 11:30 a.m. to 1:00 p.m. (Program begins at 12:00 p.m.)

Cost: Varies, you may go through the Cafeteria Line at Fiddler’s Green, or you may bring your own.

RSVP: Not required

History:
Fort Knox was established in 1918 in response to World War I. The role of the post was expanded during WWII and continues as a key military installation. As a part of the Army’s efficiency efforts, the Dept. of Defense chose to privatize the utilities on post in recent years. Hardin County Water District No. 1 teamed with Veolia and assumed control of the wastewater and storm water operations at Fort Knox in 2005. In 2012, HCWD1 partnered with the Louisville Water Company to begin operating the installation’s drinking water infrastructure.

Please join members of the Kentuckiana Post, the KY/TN American Water Works Assoc. and the KY-TN Water Environment Assoc. to hear about the types of sanitary sewer, water and storm water projects undertaken and an overview of the privatization contracts, funding and unique challenges.

</table>
2014 KENTUCKIANA POST SCHEDULE:

Regular Post Membership*

21 August 2014*  Privatization for Utilities at Ft. Knox  
Hardin County Water District  
Fort Knox, Kentucky

16 September 2014  Ohio River Bridge Project  
Max Rowland, Project Manager  
Walsh Construction  
Mazzoli Federal Bldg., Louisville, Kentucky

21 October 2014  Freedom Tower Presentation – Structural Integrity and Construction of the new World Trade Center  
David Ratterman  
Stites & Harbison  
Mazzoli Federal Bldg., Louisville, Kentucky

* Regular Post meetings are scheduled for the third Tuesday of the month unless otherwise noted.
Directions to the Quill & Saber Facility at Fort Knox

Take HWY 31W (North or South) to the Chaffee Gate. (If you are coming from Louisville, the Chaffee Gate will be just after you pass the Gold Depository on your left. If you are coming from Elizabethtown, the Chaffee Gate will be about a mile after you pass through Radcliff.)

Once you go through security, proceed on Bullion Blvd and turn RIGHT at the first traffic light onto Park Rd.

Stay on Park Rd. until it Dead Ends into Dixie Street. Turn LEFT onto Dixie Street.

Proceed on Dixie Street until Pershing Drive (about the time you come to the Fort Knox Credit Union) and turn RIGHT onto Pershing Drive.

The Quill & Saber Facility is directly ahead of you; park in the parking lot to the left. The Quill & Saber Facility is Building 1118.
