Well this year is coming to a close and I just can’t believe how fast it went by. The Kentuckiana Post accomplished so much this year with the Small Business Workshop, the monthly meetings and presentations and, of course, the JETS conference. The Post had a year-end committee meeting this week to discuss Streamers and Post business and we as a Board are so grateful for our members and how much they participate in all the events.

The Joint Engineering Training Symposium (JETS) attendance exceeded our expectations and we are expecting a large attendance at the 2015 Society of American Military Engineers (SAME) Kentuckiana Post Small Business Workshop and Match Making Event on Tuesday, 3 February. And here’s a news flash: the Louisville District, US Army Corps of Engineers has cancelled their Open House and Kentuckiana Post is stepping into the breach! We will host our first ever Kentuckiana Post Industry Day on Wednesday, 4 February to take the place of the Louisville District Open House. Both events will be held at the Marriott in downtown Louisville. Registration is open and we encourage large and small businesses to attend. Proceeds from the Small Business workshop will be used to support deployed members of the armed forces and educational initiatives of the Post.

The presentations from the Small Business Workshop and Industry Day will be placed on the Post website within a week or two after the events. The site can be found at: www.same.org/kentuckiana and registration is located on the website: https://www.regonline.com/2015KYIANAPOSTSAMESBW

Don’t forget to join the Kentuckiana Post on Social Media at the accounts listed below: https://www.facebook.com/SAMEKentuckiana?ref=hl Twitter @SAMEKentuckiana

As the holiday season is upon us and you are spending time with friends and family, please remember the service members, wounded warriors and their families. Happy Holidays and thanks to all of you for a wonderful year. See you on the 20th of January for the next Post Meeting.

Ms. Lee Carolan,
Post President, KP-SAME
SUMMARY OF OCTOBER POST MEETING . . .

Lee Carolan, Kentuckiana Post President, called the October Post meeting to order at noon on Tuesday, 21 October 2014 with a standing-room-only assembly of 96 members and guests in attendance. She invited Elected Director Clay Kelly to lead the Pledge of Allegiance and offer a prayer. Clay pumped up the crowd with an update on and personal invitation to attend the upcoming JETS. He turned the floor over to Nikki Marksberry who provided a test drive of the Post’s first ever conference smartphone app built with CrowdCompass by Cvent. Conference attendees can make the most of 2014 SAME JETS by searching for “SAME JETS 2014” in the app store on an Apple or Android device. The app is the official guide for the conference schedule, exhibitors and sponsors, speaker bios and technical presentations, venue maps, Technical Tours and Icebreaker transportation details, and personalized tracking of continuing education credits—all while attending the conference. Kudos to Ian Mitchell for spearheading the uploading of conference information to the app and to the Post for saving the trees that would have been sacrificed for the printed conference program.

Thank you to Dr. Tim Smith of the Institute for Aerospace Education (IAE) who gave a recap of the 2014 Wing Design Competition IAE sponsored earlier this year in conjunction with the University of Kentucky College of Engineering and NASA Kentucky Space Grant Consortium and EPSCoR Programs. As part of SAME’s commitment to STEM initiatives, the Kentuckiana Post provided financial support and volunteers for the competition held 17 May 2014 at the Lake Cumberland Regional Airport. The Wing Design Competition challenges teams of high school students to design and construct a wing for a remote-controlled airplane suitable for meeting various payload challenges. Schools within the IAE network create teams through formal class offerings and student clubs.

Mr. David Ratterman, a Member of the Stites & Harbison, PLLC, construction service group, concentrating his practice in general construction law with particular emphasis on the American fabricated structural steel industry, was the featured speaker with a fascinating presentation on the structural integrity and construction of the new World Trade Center Freedom Tower. Mr. Ratterman has served as Secretary and General Counsel of the American Institute of Steel Construction since 1989. A University of Kentucky Alumnus, he provided consultation following the events of 11 September 2001. In his presentation he shared technical details on the structural design of the Twin Towers, the mechanics of the collapse, and the security and specifications for the 9/11 Memorial and Freedom Tower.

Karen Tenfelde, Post Secretary
SUMMARY OF OCTOBER BOARD MEETING . . .

President Lee Carolan called the October Board meeting to order at 10:05 a.m. in the cafeteria meeting room of the Mazzoli Federal Building. The Board/Committee Leaders Sign-In Roster was circulated for signatures.

Secretary’s Report
Karen Tenfelde had circulated the August Board Meeting minutes for review and approval prior to the meeting. A motion was made and seconded to approve the Secretary’s Report. Motion passed.

Treasurer’s Report
John Allison reported a balance of $79,040.54 in the Post account which included a recent RegOnline check. John had requested funds for the Governors Scholars Program in the amount of $1,997.19 from the Education and Mentoring Fund. He reported that JETS revenue was tracking about $18,000 ahead of expenses. A motion was made and seconded to approve the Treasurer’s Report. Motion passed.

President’s Report
Everyone involved in information gathering for our 2014 streamer applications should come to a meeting on Tuesday, 16 December 2014, in Room 951 of the Federal Building. Discussions start at 10:00 a.m. with lunch served at 11:30 a.m.

** With the Small Business Workshop/Industry Day scheduled for 3-4 February 2015 including officer installation, we would not typically have a Board meeting late in February. A recommendation was made to have the next Board meeting on Tuesday, 20 January 2015. We will review the 2015 grant requests at that time rather than waiting for the April Board Meeting.**

Committee Reports

STEM (Science, Technology, Engineering, and Mathematics)
Co-chairs April Vance and Brittney Hyde presented draft criteria for three Future City Competition Awards sponsored by the Post (SAME Mission Award, SAME Patriotism Award, and SAME Public Service Award). A motion was made and seconded to approve the three-award concept. A request was made to allow additional time and follow up with the Board on the rubric content. Motion passed.

Programs
Co-chair Sean Click reported that speakers are booked through the end of the year and that no regular Post meeting would be held in November due to JETS.

Education and Training
Congratulations to Barry Dixon who is retiring at the end of the year after 42 years with Burgess and Niple. He has arranged for Bob Draper to take his place as Co-chair of the Education and Training Committee.

Fort Knox Field Chapter
Rick Storm will contact COL Leonard to promote attendance at JETS. The 13 November 2014 Ft. Knox Chapter meeting was scheduled to include a presentation by the non-profit organization WaterStep on water purifiers following disasters.
SUMMARY OF OCTOBER BOARD MEETING . . .  

Emergency Preparedness and Homeland Security  
Co-chair Tom Kamphake and Clay Kelly discussed the latest from the Private Sector Working Group meeting two weeks prior including a Lexington Ebola exercise with a PPE-modified ambulance.

Scholarship  
Congratulations to Co-chair Kristen Crumpton on the birth of her baby. Co-chair Don Van Bogaert reported that he and Kristen would be meeting in December to make preparations for the 2015 Scholarship Program announcements in January.

Young Members  
Co-chair Ian Mitchell was out of the country but will be asked to report to the Board on the SAME HQ Financial Webinar he attended at a future meeting.

Membership  
Co-chair Lisa Wilson-Plajer emailed the September membership report prior to the Board meeting. The Post currently reports 664 members. The new SAME Executive Director and his staff are providing good information to help Posts track membership throughout the year.

U of L Student Chapter  
No Committee report but Sean Click and April Vance led discussion on the possibility of starting an UK Student Chapter. The Board encouraged engaging Corey Weaver, Chair of College Outreach Committee for SAME, and the UK Civil Engineering Department Directors at UK in the initial discussions.

Small Business  
No report but arrangements are on schedule for the 3 February 2015 Small Business Workshop and 4 February 2015 Industry Day at the Marriott in downtown Louisville.

Newsletter  
No report.

Website  
Discussion centered on removing the older Post meeting minutes from the SAME-KP website.

Education and Mentoring Fund Management  
Clay Kelly volunteered to contact Co-chair Tony Marconi regarding the 20 January 2015 Board meeting and the annual fund review.

Golf Scramble  
No report other than John Allison paid Quail Chase for the 2014 golf outing.

Public Relations  
Co-chairs Nikki Marksberry and Marci Snyder gave a social media update. The Post’s Facebook and Twitter accounts are live with 11 Likes to date on Facebook and several Twitter followers from the Golf Outing. LinkedIn is coming soon!
FOCUS ON . . . OUR SUSTAINING MEMBERS

Numerous new Sustaining Member Firms have joined with Kentuckiana Post over the years. Small businesses or large corporate firms — we would like to learn more about you. This is your opportunity to “Toot your own horn” in future Flyers and let your associates know what you can do.

If you would like to submit a corporate profile for a “Focus On ...” feature or your firm would like to share news of recent awards, major projects you have completed or corporate expansion, please forward your ideas or comments for inclusion in the newsletter to Newsletter Chairperson, Mr. Matt Vaughan, Matt.Vaughan@stantec.com or Richard.Petty@stantec.com.
THANKS FOR YOUR SUPPORT . . .

Below is a photo of a letter the SAME Kentuckiana Post received from Peggy C. Combs, Brigadier General of the U.S. Army and Commanding General of the U.S. Army Cadet Command and Fort Knox, thanking the Post for its continued support of the Fort Knox Leader Training Course. Each year, the Post sends representatives to the ROTC graduation ceremonies to recognize the top engineering Cadet in each class with a certificate suitable for framing, a SAME coin, and gift certificate for their achievement. Also pictured is 1st Vice President Ray Frye with one of the outstanding Cadets.

Karen Tenfelde,
Post Secretary
2014 SAME JETS - One for the Record Books . . .

The 2014 Great Lakes & Ohio Valley Joint Engineer Training Symposium (JETS) held 19-21 November 2014 may be just a memory now but conference attendees have a lot of great experiences to look back on from their time in Louisville, Kentucky. Billed as a tremendous success from comments and feedback received, JETS was one for the record books in a number of categories:

**Diversity of participation.** With a "Bridges to the Future" theme, the conference epitomized the coming together of public and private sector representatives, small and large businesses, military and civil works interests, as well as young and not-so-young A/E/C industry professionals. Participation from the public sector with over 30 representatives on hand contributed to building and nurturing the professional relationships that make SAME so relevant and important.

**Professional networking.** There’s an old adage that if you don’t like the weather in Kentucky, stick around because it will change. Weren’t we surprised when the unseasonably cold weather on 19 November forced Churchill Downs to cancel the day’s events—only the second time in 30 years that weather interrupted racing. Not to be deterred, the crowd proved that “icebreaker” was just another word for enriching, professional networking and a great time was had by all that braved the cold.

**Continuing education opportunities.** Three technical tours covering hydroelectric power, public/private partnership transportation infrastructure improvements, and water transmission and distribution; and two intense days of technical tracks focused on Sustainability/Buildings, Civil Works and Infrastructure, New Futures for Existing Facilities, and Small Business equated to 9.5 PDH credits appealing to a broad array of interests.

**Discovering new capabilities.** The exhibit hall provided a venue for more than 50 small, large, and disadvantaged businesses to share their capabilities relevant to SAME’s mission—to provide education and support to the engineering components of the military and uniformed services and other federal, state, and local government agencies responsible for the nation’s infrastructure, and to advance the partnership between government and the architecture, engineering, and construction industry in the interest of national security.

**Mentoring future leaders.** How refreshing to have more than 80 Young Members and seasoned mentors WANT to spend an evening together sharing their experiences and visions for the future of their Society. The future looks pretty bright.

**Training is in the name.** As a learning and green organization, SAME introduced a custom smart phone conference app for Apple and Android users in place of the printed conference program. In addition to saving a few trees, we may have trained a few old dogs on

Above: April Vance prays for a technological breakthrough, other members of the JETS Planning Committee try their best to navigate the conference app

Continued

the wonders of technology and their application in today’s ever-changing world. Impress your kids as you maneuver through the schedule, list of exhibitors and sponsors, speaker bios and technical presentations, venue maps, and personalized tracking of your continuing education credits.

Spirit of volunteerism and giving back. The success of the 2014 SAME JETS can be attributed to the more than 30 committee co-chairs and volunteers who worked tirelessly throughout the year to bring the quality programs, southern hospitality, and Bluegrass treasures that made the 2014 Great Lakes & Ohio Valley JETS memorable.

Karen Tenfelde,
Post Secretary

January Post Meeting . . .

Summary of 2014 Meetings
Kentuckiana Post Board

2015 Post Schedule
JANUARY MEETING:

When: Tuesday, 20 January 2015

Presenter: Ms. Nadja Turek
Woolpert, Inc.

Location: Mazzoli Federal Building Cafeteria, (Lower Level)
600 Dr. Martin Luther King, Jr. Place, Louisville, Kentucky

Time: 11:30 a.m. to 1:00 p.m.

Cost: Varies, you may go through the Cafeteria Line, or you may bring your own.

RSVP: Not required

SUMMARY OF 2014 MEETINGS . . .

We started off the year with a February visit from Representative John Yarmuth of Kentucky’s 3rd Congressional District. Representative Yarmuth provided a congressional update and discussed current issues of legislative interest. He joked about being a part of the least productive Congress in history. Still, some incredibly complicated issues are being addressed including raising the debt ceiling and passing a budget. Many tough issues of interest to SAME members like fixing infrastructure, improving education, and providing oversight to regulations remain untouched. On the positive side, Representative Yarmuth emphasized that the U.S. is getting serious about energy.

In March, Greg Shuttleworth of Woolpert, Inc. and P. Scott Cary with Mead and Hunt, Inc. came to speak with us on modern airfield pavement management strategies. Greg covered Airfield Pavement Management Systems (APMS) and their importance in establishing a performance baseline, tracking proactive repairs through the pavement life cycle, and prioritizing projects. Scott picked up the discussion on next steps once the APMS was in place. The APMS helps the client assess healthy pavements and pavements needing repair. In addition, an APMS is invaluable in bridging the gap and prioritizing repair projects when the client doesn’t have the money available for a full repair program.

April brought us Mike Saffran, Senior Planner with USACE Great Lakes and Ohio River Division. Mike provided an overview of the Great Lakes and Mississippi River Interbasin Study focusing on options and technologies available to prevent the spread of aquatic nuisance species (ANS). He shared details on various ANS including three varieties of invasive carp that could threaten the collapse of aquatic life in the Great Lakes and Mississippi River Basin.

The May SAME Kentuckiana Post Meeting was our annual Scholarship Awards Luncheon and Joint Meeting with the U of L ASCE/SAME Student Chapter held at the University Club on the Belknap Campus of the University of Louisville. More than 40 were on hand for the celebratory event. Five talented students were recognized with scholarships at the May luncheon. Lucy Schurr, a University of Louisville student and USACE Louisville District employee, spoke on behalf of the U of L ASCE/SAME Student Chapter, updating the audience on the activities the Student Chapter has been...
Summary of 2014 Meetings . . .

involved with over the last year. Special thanks to Kristen Crumpton and Erin Rasinen for spearheading the scholarship committee and for all the volunteers who spent time evaluating the applications.

June brought summer and USACE’s own Keith Fleck and Ed Vincent who provided an update on Recent Repairs to Lock and Dam (L&D) 52 in Brookport, Illinois. Their informative presentation centered on lock history and facts. Originally constructed in the 1920s, L&D 52 and 53 are the last low lift wicket dams left on the Ohio River and are slated to be replaced by Olmsted Lock and Dam in 2020. Project complexities addressed in the presentation included dam sections of varying heights and lengths, timber pile dam construction with minimal concrete reinforcement, dams not designed for dewatering, and an aggressive schedule to support navigation needs.

In July, STEM Committee Co-chair Brittney Hyde had the honor of introducing two of the SAME AFA Engineering and Construction Camp participants sponsored by the Post in 2014 – Brycen Lacey and Raymond Pallazzo. Brycen and Raymond spoke about their camp experiences. Joe Percefull, Regional Coordinator for the Future City Competition in Kentucky addressed the attendees about the Future City program. Future City is a national, project-based learning experience for students in 6th, 7th, and 8th grade to partner with an educator and engineering mentor to imagine, design, and build cities of the future. The Kentuckiana Post is considering adopting the Future City Competition as our signature STEM activity. By providing engineering mentors to various teams for next year’s competition, we could increase the presence of Jefferson and Fayette County Schools in the Future City Competition.

August brought us together in a joint meeting of SAME and the KY-TN chapters of the American Water Works Association (AWWA) and Water Environment Association (WEA) at Fort Knox, Kentucky. COL Luke Leonard, Past President of the Kentuckiana Post and current HR Command Senior Engineer Officer at Fort Knox, spoke about the vital importance of reach back and the coordination between military and private sector personnel in the case of national disasters. Directors Kay Sanborn and Valerie Lucas of AWWA and WEA were invited to say a few words about their organizations. The presentation speaker was Jim Bruce, General Manager with Hardin County Water District No. 1 (HCWD1), the oldest water district in the state. Mr. Bruce talked about Fort Knox utilities and the privatization of water, wastewater, and stormwater infrastructure. Approximately 48% of HCWD1’s revenue comes from Fort Knox utilities. Ongoing initiatives include water quality modeling that will be used for recommendations for improvement of drinking water quality.

The September presentation on the Ohio River Bridge Project by Max Rowland, Project Manager for Walsh Construction, drew a crowd of more than 90 attendees. The $860 million design/build project was bid in 2012 and broke ground in 2013. With 14 months under their belt, Walsh continues work on new river crossings for a new cable-stayed bridge with six northbound lanes, and the rehabilitation of the existing Kennedy Bridge to six lanes southbound. In addition, 60 other structures, 40 in Kentucky, and 20 in Indiana, are under construction as part of this mega project. Walsh has seen improved efficiency due to the repetitive nature of the form work but contends it has been a challenge to maintain two lanes of operational traffic during peak times on the Kentucky side of the river, a requirement of the award. He elaborated on construction of the drilled shafts for the river crossing foundations and flotation of the assembled beams from the Port of Indiana downstream to the construction site. The new bridge is scheduled to be complete in April 2016.

We hope in 2015 to provide a broad spectrum of programs for the Post to educate and inform our membership. Thanks for the continued support.

Sean Click, Program Co-Chair
