NOTE: The SAME National Energy & Sustainability (E&S) Committee is seeking a POC/liaison from each Post to receive a quarterly email and share with the post. If you would like to volunteer, please notify Richard Entwisle so he can send your name/email to tomsipe@lutron.com.

HOST SUSTAINING MEMBER INFORMATION

Thank you to Lowe Engineers for hosting last month’s meeting.

We still have some luncheon meetings available for Sustaining Members to host. Hosting our monthly meetings is a great opportunity to put your firm in the limelight and showcase your firm’s experience and abilities. If your firm is interested in hosting one of these meetings, please contact Charlie Settoon at (504) 889-0182.

We would like to thank all the Sustaining Member Firms who have hosted a monthly meeting in the past. If it has been a while since your firm hosted a meeting, you are welcome to host another meeting. Let’s continue to show our support for the Louisiana Post through this great professional opportunity.

Gary Cecchine
Director of Research, RAND Gulf States Policy Institute; Senior Natural Scientist
New Orleans Office

Education

Ph.D. in biology and public policy, Georgia Institute of Technology; B.S. in marine science and biology, University of Tampa.

Gary Cecchine is director of research for the RAND Gulf States Policy Institute and a senior natural scientist at the RAND Corporation. He leads and conducts technical and policy research in a range of areas, including energy and environmental policy, coastal protection, emergency preparedness and response, homeland security, and science policy. As director of research, he also develops and coordinates policy research in health, education, economics, public safety, and regional and strategic planning. Gary earned his Ph.D. in biology and public policy from the Georgia Institute of Technology and was a U.S. Army officer in the infantry and medical service.

The RAND Corporation is a research organization that develops solutions to public policy challenges to help make communities throughout the world safer and more secure, healthier and more prosperous. Visit us on the Web at www.rand.org.
