Federal directives call of new construction projects to achieve Net Zero Energy performance in the next decade

Speaker: CAPT John Hickey, USCG, Retired, Principal at Jacobs Energy Solutions Group

Program: This month’s program will be on the Federal directives call of new construction projects to achieve Net Zero Energy performance in the next decade. Learn how the US Army has already achieved this goal at Fort Carson through the design and construction of their new Aviation Support Battalion Hangar at Butts Army Airfield.

Presenter: John Hickey is a Principal in Jacobs Energy Solutions Group. He consults with clients on energy projects, high performance buildings, commissioning and resilience. He completed his undergraduate work at the U.S. Coast Guard Academy and his master’s degree at the University of Illinois. He spent 28 years on active duty with the U.S. Coast Guard including tours of duty managing the execution of their energy program nationwide and as the Commanding Officer of the Coast Guard Base in Honolulu. He is a licensed professional engineer, Certified Energy Manager, and a LEED Accredited Professional. He is also an Ambassador Presenter for the International Living Future Institute and an SAME Fellow. John is the SAME Northwest RVP

Reservations
Please Contact Kim Kaul by email at kkaul@ahbl.com by Thursday, April 6th to make your reservations.

Location
This month’s meeting will be held at 7 Seas Brewery in Tacoma, 2101 Jefferson Avenue, Tacoma. Directions: From I-5 Take exit 133 merge onto I-705N toward City Center, take first exit toward S 21st Street. Stay in Left lane and take left and follow straight onto 21st to Jefferson. Take left on Jefferson and find street parking. Venue is on your left.
SAME High School Scholarships Applications

To be eligible for this scholarship, Applicants must be enrolled in a full time undergraduate Engineering, Architecture, Interior Design, Construction Management, or Science degree program at an accredited college or university in the fall term of 2017. Applicants who have earned an undergraduate degree or who are enrolled in a graduate degree program are not eligible. All applicants must also have a minimum GPA of 2.5 (on a 4.0 basis) to be eligible to apply. No scholarship will be awarded for those pursuing an associate, second undergraduate, or graduate school degree. Students attending a community or junior college must be enrolled in a program of studies designed to allow the student to transfer directly into a four-year program. Applicants who receive an appointment to one of the U.S. Military Academies (or affiliated preparatory schools) or are awarded a full scholarship at any accredited U.S. postsecondary institution of higher education are not eligible to receive funds from this program. A full scholarship is usually defined as one that provides for payment of tuition, books, lab fees, and other related expenses. An ROTC scholarship is considered a full scholarship.

NOTE - Preference will be given to Engineering, Architecture, Interior Design, or Construction Management curriculum that is related to the construction, operation, or maintenance of facilities, or that in some way supports America’s Defense infrastructure. Preference will be given to candidates who are current Individual members of the Mt. Tacoma Post or a SAME Student Post at their college or university. Preference will also be given to candidates whose parent, guardian, or sponsor is a current member of the Mt. Tacoma Post of the Society of American Military Engineers (SAME) and/or a member of the National SAME. Detailed evaluation criteria are listed on Attachment A. The completed application, including transcripts, must be postmarked or emailed no later than 18 May 2017. Applicants must submit the original, signed application and transcript, as well as 5 complete copies. Incomplete applications will not be considered.

Applicant Name: ____________________________

Full Applications are available on the Mount Tacoma Post SAME website under “Post Announcements”. If you can not locate a copy of the application, please contact Dave Newkirk at dave.newkirk@bceengineers.com.

Your firm can appear in this space! If you would like to become a Sustaining Member of the Mount Tacoma Post, please contact Dave Newkirk at 253.922.0446.
The mission of the Society of American Military engineers is “To promote and facilitate engineering support for national security by developing and enhancing relationships and competencies among uniformed services, public and private sector engineers, and related professionals.” One key avenue for the society to accomplish that mission is to make the expertise and capabilities of our members readily available to government agencies responsible for response to natural and manmade disasters. To accomplish that end the Mt. Tacoma and Seattle Posts established an Emergency Preparedness and Infrastructure Resilience (EO&IR) committee.

Historically, large-scale response to emergencies has been a partnership between government and private industry. The full support potential of the A/E and construction industry in the Puget Sound area can only be reached when the Government’s emergency managers and the executives of the member companies are aware of each other’s requirements and capabilities.

EP&IR committee members reach out to local, State and Federal agencies to inform them of the capabilities of our sustaining members. The committee has prepared a tri-fold leaflet explaining the mission and purpose of SAME emergency preparedness. The leaflet contains a listing of member firms who have indicated a readiness to respond to emergencies and disasters.

The committee needs to know if you or your firm will be available to respond with your resources in the event of a disaster. The key questions are: (1) what capabilities do you offer to emergency managers in the early stages of disaster response and (2) how responsive can you be given that a regional event, such as an earthquake, may damage your facilities including employees’ homes. Any member firm that would like to participate as a listed available resource to government emergency management agencies should contact the Mt. Tacoma or Seattle Post Co-Chair of the Emergency Preparedness and Infrastructure Resilience Committee. In addition, any individual member who would like to work with the Committee is encouraged to contact one of the same committee co-chairs.

If you have any questions about this effort please contact: John Haddick EP&IR Committee Co-Chairman at jehaddick@msn.com / (253) 565-1223 or Mike Moran EP&IR Co-Chair at michael.moran248@gmail.com / (253) 232-3087.
