Project Seabird Phase IIA in India

Program: The Indian Navy mega program “Project Seabird Phase IIA” is a $3.5 Billion program to construct new and/or expand existing Naval bases on the west coast of India. A total of 13 individual large projects (roughly $200-$250M each) will be executed which all make-up the Project Seabird mega program, including a stand-alone $200 million project to construct a new and complete dockyard complex for conducting fleet ship maintenance and repairs, a massive new 4-bay covered dry-berth for ship’s maintenance, a complete and expansive Naval Air Station including dual cross runways, creating new waterfront and ship’s berthing facilities from reclaimed land including 11 new piers and shore infrastructure built on reclaimed land, 4 housing complexes/townships, and supporting utilities and services infrastructure. AECOM’s PMC role is to provide full project/program management including perform all conceptualizing, planning, procurement, construction oversight/management, inspections, testing and acceptance. The Seabird program is now in year 3 of an expected 10 year program.

Presenter: Bob Parker is an Executive Director at AECOM. He is a Professional registered Senior Engineer, Planner and Director with more than 36 years of experience in facilities/real property administration, planning, design and construction, with 14 years in proven executive level organizational improvement and program/project delivery and management. Bob has delivered Public Works management and administration, facility requirements and master planning, budgeting, facilities design, engineering, construction, contracting, utilities, maintenance, real property management and transportation as well as mega construction project leadership management and delivery. Strong skills in achieving organizational vision and goals even with limited and/or reduced resources.
SAME High School Scholarships Applications

Full Applications are available on the Mount Tacoma Post SAME website under “Post Announcements”. If you cannot locate a copy of the application, please contact Dave Newkirk at dave.newkirk@bceengineers.com.
To be eligible for this scholarship, Applicants must be enrolled in a full time undergraduate Engineering, Architecture, Interior Design, Construction Management, or Science degree program at an accredited college or university in the fall term of 2017. Applicants who have earned an undergraduate degree or who are enrolled in a graduate degree program are not eligible. All applicants must also have a minimum GPA of 2.5 (on a 4.0 basis) to be eligible to apply. No scholarship will be awarded for those pursuing an associate, second undergraduate, or graduate school degree. Students attending a community or junior college must be enrolled in a program of studies designed to allow the student to transfer directly into a four-year program. Applicants who receive an appointment to one of the U.S. Military Academies (or affiliated preparatory schools) or are awarded a full scholarship at any accredited U.S. postsecondary institution of higher education are not eligible to receive funds from this program. A full scholarship is usually defined as one that provides for payment of tuition, books, lab fees, and other related expenses. An ROTC scholarship is considered a full scholarship.

NOTE - Preference will be given to Engineering, Architecture, Interior Design, or Construction Management curriculum that is related to the construction, operations, or maintenance of facilities, or that in some way supports America’s Defense infrastructure. Preference will also be given to candidates whose parent, guardian, or sponsor is a current member of the Mt. Tacoma Post of the Society of American Military Engineers (SAME) and/or a member of the National SAME. Detailed evaluation criteria are listed on Attachment A. The completed application, including transcripts, must be postmarked or emailed no later than 18 May 2017. Applicants must submit the original, signed application and transcript, as well as 5 complete copies. Incomplete applications will not be considered.

Applicant Name: ___________________________
Support our soldiers in service.

Support to families as they cope with extended deployments and casualties.

Memorial materials and social support befitting one who has given his or her life for our country.

Flower arrangements provided for memorial services in both hometown and military installation.

Support to families in times of need.

Financial support in times of need.

Support our troops today!

Support the fallen and carry on with those who serve.

Our mission is to provide support for deployed soldiers and families.

Families of the 555th Engineer Brigade

Through your generous donations you can truly make a difference for the soldiers and their families.

The 555th Able Soldier and Family Fund is a 501(c)(3) non-profit CFC. The giving season is from June 1 through December 31.

The Triple Nickel

The 555th Engineer Brigade is part of the 1st Marine Division based in Okinawa, Japan. The Triple Nickel is a unique group of men and women who have lost loved ones in the line of duty. For over 15 years, the Triple Nickel has continued to serve the needs of the nation and its families by providing support and services to deployed soldiers and their families.

Support When Needed

The Triple Nickel provides support to deployed soldiers and their families by providing financial assistance, mental health services, and crisis intervention. The organization is dedicated to helping soldiers and their families through challenging times.

Contribute today and support the mission of the 555th Engineer Brigade. Your donation will help provide support to deployed soldiers and their families.

Contribute Now

The 555th Engineer Brigade is a non-profit organization that provides support to deployed soldiers and their families. Your donation will help provide support to deployed soldiers and their families.

Your firm can appear in this space! If you would like to become a Sustaining Member of the Mount Tacoma Post, please contact Dave Newkirk at 253.922.0446
The mission of the Society of American Military engineers is “To promote and facilitate engineering support for national security by developing and enhancing relationships and competencies among uniformed services, public and private sector engineers, and related professionals.” One key avenue for the society to accomplish that mission is to make the expertise and capabilities of our members readily available to government agencies responsible for response to natural and manmade disasters. To accomplish that end the Mt. Tacoma and Seattle Posts established an Emergency Preparedness and Infrastructure Resilience (EO&IR) committee.

Historically, large-scale response to emergencies has been a partnership between government and private industry. The full support potential of the A/E and construction industry in the Puget Sound area can only be reached when the Government's emergency managers and the executives of the member companies are aware of each other's requirements and capabilities.

EP&IR committee members reach out to local, State and Federal agencies to inform them of the capabilities of our sustaining members. The committee has prepared a tri-fold leaflet explaining the mission and purpose of SAME emergency preparedness. The leaflet contains a listing of member firms who have indicated a readiness to respond to emergencies and disasters.

The committee needs to know if you or your firm will be available to respond with your resources in the event of a disaster. The key questions are: (1) what capabilities do you offer to emergency managers in the early stages of disaster response and (2) how responsive can you be given that a regional event, such as an earthquake, may damage your facilities including employees' homes. Any member firm that would like to participate as a listed available resource to government emergency management agencies should contact the Mt. Tacoma or Seattle Post Co-Chair of the Emergency Preparedness and Infrastructure Resilience Committee. In addition, any individual member who would like to work with the Committee is encouraged to contact one of the same committee co-chairs.

If you have any questions about this effort please contact: John Haddick EP&IR Committee Co-Chairman at jehaddick@msn.com / (253) 565-1223 or Mike Moran EP&IR Co-Chair at michael.moran248@gmail.com / (253) 232-3087.
