One World Trade Center, New York, U.S.A.

- Construction management of what will be the tallest tower in New York, standing 1,776 feet high and comprising 2.6 million square feet of Class A office space.
- Playing a key role in the rebuilding efforts at the site. Also managing office Towers 3 and 4, the Vehicle Security Center, and the Transportation Hub.
World Trade Center Transportation Hub, New York, U.S.A.

- Construction manager, in a joint venture with Turner Construction, of the new multi-rail line terminal and gateway to lower Manhattan. Designed by Santiago Calatrava in association with AECOM.
- The Hub will include subgrade pedestrian connections to local transit, a multi-story central hall, a public waiting area and first-class retail.
Pentagon Renovation, Washington, D.C., U.S.A.

- 20-year effort to upgrade the 6-million-square-foot headquarters and ancillary facilities for Washington Headquarters Services, U.S. Department of Defense.
- Services: program and construction management, including classified spaces.
- Sustainability features: Metro Entrance Facility, Remote Delivery Facility, Wedges 2 and 3 and Athletic Center all LEED-NC certified; Wedge 4 and Pentagon Library and Conference Center LEED-NC Silver certified.
- The Phoenix Project restored the destruction of the 9/11 terrorist attack in one year.
Biological Threat Reduction Integrating Contract (BTRIC)

- BTRIC goals: Enhance national security; make the world safer from biological threats; integrate host nation scientists into the international scientific community.
- AECOM services: project management and technical expertise, including architecture, engineering, training, planning, logistics support, cost estimating, construction management, management of research programs, and bio-safety.
