Letter from the Post President

The Pike Peak Post continues to vigorously champion achieving SAME and PPP goals. The success of our 2017 Engineering & Construction camp, annual Education and Mentoring Golf Tournament, and Boy Scout Engineering Merit Badge Day are a testimony to the dedicated support of volunteers, sponsors, and sustaining firms. The months ahead provide more opportunities for us to serve the community and also bring a greater need for volunteers and sponsors. Our challenge is to continually support mentoring and growing the engineers of tomorrow. Please get involved and realize that support can often be done virtually as your personal calendars allows.

We’ve also condensed the newsletter to allow readers to delve deeper into topics as they desire, often with links to a larger article following an overview article. We will also endeavor to make greater use of the SAME PPP website with updates done on a continual basis. Let us know what you think. I look forward to seeing you at our next SAME PPP monthly meeting or other event.

Best Regards,
Col. Anton Ramage, USAF (Ret)
President, Pikes Peak Post - Society of American Military Engineers

Announcements

**MAKING A DIFFERENCE ~ Angel Tree at Fort Carson**

Help bring joy to the children of the Fort Carson Wounded Warriors by “adopting” an Angel!

In support of the Warrior Transition Battalion and their families at Fort Carson, Society of American Military Engineers (SAME) has partnered with the Fort Carson Soldier and Family Assistance Center (SFAC) to collect gifts during our November and December meetings for the children of the Fort Carson Warrior Transition Unit through our angel tree program.

The Pikes Peak Post is accepting generic gifts, checks, and/or gift cards beginning at the October General Membership Meeting or delivered to the addresses below. Angel names and "wish" lists are available beginning **1 November**. Please contact Cindy Lincicome (clincicome@betance.net) to receive the name, age and wish list of each child you would like to “adopt” for this program.

Sustaining Member Firm/Company participation is encouraged. Adopt a group of children and participate in delivery of gifts to the SFAC in December! We will be collecting the wrapped gifts at the November and December SAME Pikes Peak Post Membership Meetings or accepting drop off gifts at the following locations.

Omaha District welcomes new commander Col. John L. Hudson
Contact Thomas A. O’Hara, 402-995-2417, dll-cenwo-pao@usace.army.mil for detailed article

Col. John L. Hudson assumed command of the Omaha District, U.S. Army Corps of Engineers. As part of the ceremony, the district recognized and thanked outgoing commander, Col. John W. Henderson. As District Commander, Hudson oversees an annual program of more than $1 billion spread over 1,200 military construction projects in eight states, civil works projects in nine states, and environmental restoration projects in 41 states. Hudson assumes command of the District after completing a graduate degree from the National Defense University’s Eisenhower School in National Security and Resource Management. He previously served as the Executive Officer for the Chief of Engineers, USACE and as the Commander of the Nashville District, USACE, where he managed water resources development and navigable waterways operations for the Cumberland and Tennessee River basins. Previous assignments included Lead Engineer, Joint Contingency Acquisition Support Office, Defense Logistics Agency, Fort Belvoir, VA and Executive Officer in the 9th Engineer Battalion, 172nd Infantry Brigade, Schweinfurt, Germany. While there, he deployed to Iraq supporting OPERATION IRAQI FREEDOM 08-10.

Henderson retires after 23 years of uniformed service in the United States Army. He spent the past two years as the Omaha District Commander and has made a strong impact on many of the District’s major projects, to include: the new U.S. STRATCOM Command and Control Facility, the Veterans Affairs Hospital in Aurora, Colorado, the 4TH Combat Aviation Brigade on Fort Carson, Colorado, and the regulatory and civil works requirements throughout the upper mid-west. Read more on this article at http://www.nwo.usace.army.mil/Media/News-Releases/Article/1259153/omaha-district-welcomes-new-commander-col-john-l-hudson/

SAME National Leadership Nominations

It is time once again to select SAME’s national leaders!

The SAME National Leadership Team is committed to finding dedicated volunteer leaders who are steeped in a broad range of SAME experiences over time and who have a solid foundation of proven Post level achievement. Simply put, we are looking for willing and experienced volunteers to lead our Society! We need your active involvement to find the “best of the best” to serve as SAME National Officers and Elected Directors. SAME has initiated a National Leadership Nomination process that is inclusive, transparent and equitable. The process establishes separate nominating committees for National Officers and for Elected Directors. Nominations for Elected Director and National Officer are open from Oct. 1-Dec. 1, 2017.
The respective nominating committees then will determine the candidates who be voted on by the entire Society membership during online elections, which be held from March 1 through April 15, 2018. For more information, http://www.same.org/Online-Forms/National-Leadership-Nominations

**SAME Resilience Response & Recovery Forum**

SAME has set up a Resilience Response & Recovery Forum for member companies and agencies to post information if they need support to execute work in storm-affected areas. To donate to Harvey recovery efforts, click here for more information.

**Outreach**

**9th Annual SAME/Boy Scout Engineering Merit Badge Day Held September 30**

Each year the Pikes Peak Post (PPP) hosts a Boy Scout Engineering Merit Badge Day at the United States Air Force Academy. PPP hosted its 9th Annual Engineering Merit Badge Day on September 30, 2017 where 50 boy scouts successfully completed the program. The event consisted of seven different stations designed to meet the specific requirements of the Boy Scout engineering merit badge. The stations ranged from a visit to the observatory to see a telescope that was used for mapping the moon to support the lunar landings to visiting the materials lab to test the strength of concrete, steel and wood. The Scouts also went to an electrical engineering lab to learn how music and sound changes media from sound waves to electrical signals to radio waves and back. These stations and associated tasks along with other questions and answer forums allowed the Scouts to complete the merit badge requirements.

At the end of the day the scouts sat down with a professional engineer volunteering as engineering merit badge counselors to discuss one on one what they learned about engineering and careers in engineering. This was a great opportunity for SAME members statewide to mentor future engineers.

For the 50 scouts to complete their merit badge it took a cadre of 28 eager volunteers to help. The volunteers included 12 cadets from the Air Force Academy and five Air Force Academy Instructors. Ten members of the Pikes Peak Post and Denver Metro post helped make this event happen this year. Without the help of every one of these volunteers we would not have provided this service to the Boy Scouts and would not have had this opportunity to mentor our future engineers. We also want to give a sincere thank you to The United States Air Force Academy and Col John Christ, Civil and Environmental Engineering Department; and Col John Cinnamon, Department of Aeronautics. The Academy’s support for this and many SAME STEM events are vital to serving the scout and youth in our region. Also, special thanks to our Sustaining Firm sponsors: Galloway & Co Inc. (www.GallowayUS.com) and Merrick & Company (www.merrick.com).

On April 21, 2018, we will hold our corresponding annual Young Women’s STEM event at USAFA. PPP is looking for volunteers to help support this event. These STEM events for youth are just some of the many STEM events SAME holds throughout the year to recruit and mentor our next generation of engineers.
2017 SAME PPP Annual Education & Mentoring Golf Tournament

The Pikes Peak Post (PPP) Annual Education and Mentoring Golf Tournament on 26 August 2016 at the picturesque US Air Force Academy Eisenhower Golf Course was a resounding success. The fulfilled day enjoyed great weather, a well-manicured golf course, and great fellowship. The golf scores were excellent thanks to the best ball format. It was a great turnout with over 100 participants (e.g. golfers, donors, volunteers) in the tournament. Thanks to the donations of the players, our generous sponsors, and our enthusiastic volunteers this event raised over $4,000 for the SAME PPP Education and Mentoring Fund. This money enables us to offer scholarships and stipends to deserving students and members seeking to further SAME support of sciences, technology, engineering, and math (STEM) educational programs and professional development, certifications, and professional licensures.

A special THANK YOU to our Sponsors, SAME PPP Sustaining Members, SAME Members, and Volunteers for making this another Fun and Successful Annual Event!!

SAME / USAFA STEM Engineering and Construction Camps 2017: Building Our Future

We had a spectacular STEM summer conducting 5 SAME E&C Camps. Although these are only week long camps, the experiences for the campers are for a lifetime. SAME is proud to sponsor these camps and contribute to our nation’s future STEM professionals and national security. The AFA camp finished right before our nation’s birthday, with 96 kids and a staff of 40 exceptional SAME volunteers. I am convinced these campers will be among our future leaders and engineers - they certainly have the talent – every year I am more impressed. With a 17 year history, our alumni base continues to grow. Our staff of 40 consisted of over 26 former campers, returning mentors, or former AFA cadets.

Campers participated in 25 events ranging from building wood structures to talking with Robert L. (“Van”) Van Antwerp (LTG Ret) M.Sc. M.B.A. former Chief of Engineers of the United States Army and Commanding General of the U.S. Army Corps of Engineers. The engineering challenges are important, but, the relationships with their Flight mates, mentors and other staff is long lasting and has just as significant an impact. We want our campers to join the SAME family, staying connected through college and beyond.

Camper and Parent Feedback. You only have to read the feedback form campers and parents to see the positive impact the E&C camps have. Below are some excerpts from the multitude of feedback we received on the 2017 camp:

- Camper (Sage Lindsay, class of 2018): I can honestly say it was one of the best camps I have been to and I learned so much.
- Camper (Grady Gills, class of 2018). It was a great experience...I enjoyed having Cadet Ryan Schwartzkopf around to answer questions I had about life at the Academy and to tell his own stories.
- Parent (Zachary Dickson, class of 2019)....came home a changed person...strong friendships he made and inspired by the possibilities of engineering.
- Camper (Grant Engel, class of 2018). I owe you a huge thank you for all your help involved in the SAME Camp this summer. It was such a great experience...now I’m positive I would like to pursue an Academy and the engineering field.
- Camper (Reagan Hajjar, class of 2019). I learned how to communicate, apply engineering concepts, and have fun while working hard. My flight and I bonded during the projects. Ever since graduation, we have talked every single day. Not only did the camp solidify that I want to become an engineer, but it also cemented my decision to seek nomination to the Academy.
- Parent (Nathaniel Miner, class of 2019). ...looking at things "like an engineer." This SAME camp experience has definitely impacted our son
- Parent (Caleb Morgan, class of 2019). ...has mentioned looking into computer engineering as a college major based on conversations he had mentor/presenter at the camp. You guys did a great job. Thanks for your time and efforts.

- Camper (Andrew Lemke). Pass on some good news. I was accepted to the AFA, and I owe it to you who got the ball rolling by accepting me to the SAME engineering camp.

- Parent (Nicholas priest). ...great experience at the SAME Construction and Engineering Camp. When he returned home late last night (11:30pm here on the east coast) I was very tired, but Nick got off that airplane all charged up! He chatted all the way home about the experience and hasn't stopped talking about it!

- Camper (Shannon). Honestly that was one of my best experiences to date. I can honestly say the SAME STEM camp impacted me as a person, gave me lifelong friendships, and reinforced my desire to go into the military on top of all the time.

A very SPECIAL THANKS to all of our volunteering members and sponsors for making this possible – we are having a very significant impact!! For more information on the SAME STEM Camps, visit [www.same.org/stemcamps](http://www.same.org/stemcamps).

**SAME Pikes Peak Post Young Members**

**2017 CAAP Applications are Due NLT October 23, 2017**

The Credentialing Achievement Awards Program (CAAP) for Young Members and NCOs is an effort to support SAME Young Members and NCOs obtaining credentials that strengthen their professionalism, SAME has developed the CAAP. The program is intended to help fund exam sitting or registration fees for credentials, certifications or licensure, deemed to have intrinsic value to SAME’s mission and the architectural and engineering professions. These include:

- Fundamentals of Engineering Exam and Professional Engineer Exam (any discipline)
- Architect Registration Examination (for any division)
- Certified Construction Manager (Sponsored by Construction Management Association of America)
- Design-Build Certification (Sponsored by Design-Build Institute of America)
- Leadership in Energy and Environment Design (Sponsored by U.S. Green Building Council)
- Certified Energy Manager (Sponsored by Association of Energy Engineers)
- Project Management Professional (Sponsored by Project Management Institute)
- Certified Facility Manager (Sponsored by International Facility Management Association)
- Credentials offered by National Institute for Certification in Engineering Technologies (NICET)

Others may be considered on a case by case review by the Committee and with the approval of the SAME Director of Programs. See [http://www.same.org/Career-Development-Center](http://www.same.org/Career-Development-Center) for details or contact Vice Chair of Mentoring & Recognition, MAJ Jack Johannes at jack.johannes@gmail.com. Please visit [http://www.same.org/Young-Member](http://www.same.org/Young-Member) for more information.
Small Business Corner

Small Business Spotlight Opportunity - PPP General Membership Meetings

Greetings SAME PPP – we are currently seeking small businesses to give a short presentation on their firm’s offerings at the SAME PPP general membership meeting during the “Small Business Spotlight.” The Small Business Spotlight is an opportunity for Small Businesses to network with a group of people/companies from the same industry and perhaps ultimately team with one of the companies represented by the membership. Also, key decision makers from Government agencies are present providing an opportunity to present to agencies which champion acquisition of products and services from Small Businesses. Please contact the SAME PPP Program Committee members to get more information.

Awards & Recognition

10th CES Firefighters Set World Record at Regional Competition.

Firefighters assigned to the 10th Civil Engineering Squadron doused the competition to set a world record at the Scott Firefighter Combat Challenge, June 29 in Longmont, Colorado. Their over-40-relay competition time of 1:10:93 blistered the competition, qualifying the firefighters to compete in the World Championships in October at Louisville, Kentucky. The Scott challenge is a timed, five-event obstacle course requiring firefighters to simulate fighting a fire and rescuing a victim. The USAFA firefighters have regularly competed on the world stage for a decade, logging consistent wins and making Colorado Springs an international powerhouse in the Firefighter Combat Challenge. Along with the over-40 relay team’s world record, 10th CES Fire Chief Kenneth Helgerson took first place in the over-50 category while Academy firefighters Joe Stacker and Roy Dalton placed second in the over-40 tandem race. Team relay firefighters took third and second during both days of competition. These results qualify each firefighter and team to compete for the title of “Worlds’ Best.” Visit www.firefighterchallenge.com for more information.

Membership

Sustaining Member Partner Program

SAME is pleased to present its new and improved 2017 Sustaining Member Partnership Program. The program is designed to provide our longstanding Sustaining Members with outstanding marketing opportunities throughout the year and to save you time in managing your SAME membership and sponsorships. Plans can be tailored to meet your company’s specific needs. Contact Stephanie Satterfield, Marketing, Sales & Business Development Senior Manager, at ssatterfield@same.org for more information on this valuable opportunity.
View the partnership levels below to see the membership and marketing benefits available.
http://www.same.org/Become-Involved/Partner-Program

Post Affiliations – Did you know? You can have THREE!

Did you know?? You can add a Third Post to Your Membership for Free!!! As a member of the Society of American Military Engineers you have been entitled to Two Post Memberships with your Individual Membership. SAME’s Executive Committee has approved an option to increase your benefits—and allow you to add a Third Post for Free! Why not triple the size of your network? To take advantage of this free membership benefit, you must Login to your Membership Record and pick from among any of the other 105 Posts. If you do not know your login information, click here to have your username or your password sent to you. Typically, your username is your email address and your password is your member ID number. If you have any questions, contact SAME PPP Membership Chair Candis Hamilton – (candis.hamilton@merrick.com), or Stacy Humes (shumes@same.org) at any time.

Welcome to New PPP Members

The Pikes Peak Post has 556 PPP Members: 297 Individual Members, 259 Sustaining Members, and 70 Sustaining Firms. A hearty welcome to our new Individual, Sustaining, and Sustaining Firm Members!

Sustaining Member News

Stanley Consultants awarded indefinite delivery/indefinite quantity (IDIQ) contracts. The Air Force Special Operations Command (AFSOC) selected Stanley Consultants, as part of a joint venture with The Urban Collaborative and Cardno, to provide master planning, programming, design and environmental services to AFSOC, attached units, and other Department of Defense (DoD) units, in the continental United States (CONUS) and outside the Continental United States (OCONUS). Major installations are located in Florida, New Mexico, Japan, United Kingdom and Germany. Under the contract, work may be awarded on task orders through 2022 with a total program value of $40 million.
Tim Pach Joins Stanley Consultants as Project Manager. Tim Pach, a past member of and key volunteer for the Pikes Peak Post, has joined Stanley Consultants as a project manager in the firm’s Austin Office. Assigned to the U.S. Federal and International Group, his focus is on Department of Defense projects worldwide, primarily the Air Force and the Air Force Civil Engineer Center (AFCEC). Stanley Consultants is a consulting engineering firm that provides program management, master planning, engineering, environmental, and construction management services worldwide. Pach’s professional engineering experience comes from the U.S. military, where he served as a Major in the Air Force. His most recent assignment was as assistant professor of civil engineering at the U.S. Air Force Academy in Colorado Springs, Colorado, where he taught civil engineering principles and practices to over 600 students.

Tim served on the board of the SAME Pike’s Peak Post and received two prestigious awards, the Rocky Mountain Region Vice President’s Medal for outstanding contribution to the region’s mission; and the National Bliss Medal in recognition of superior efforts in mentoring students in engineering and related disciplines.

Click here to read more about Tim and Stanley Consultants.
