NOTICE Regarding GDPR
Since 25 May 2018, SAME must comply with the General Data Protection Regulation (GDPR). This applies to everyone who works or lives in the European Union. We need your consent to send you SAME newsletters, information about upcoming events, other Post information, Society governance, or any other type of communication! After 25 May 2018, we will be unable to contact you electronically unless you go in and select what you would like to be notified about. For instructions on how to "opt in", see below.

Please go to www.same.org/login and login with your username and password (usually your email address and your member ID number). Once you log in, you'll see a Member Account link on the TOP Toolbar. That will take you to the Member Dashboard where there is a Consent Form link. Please open the form and select the relevant boxes. By choosing "Yes" to the options, you are providing your consent for us to send you communications and/or utilize your information as specified. If you prefer that we do not contact you, choose no and you'll be removed from future communications as indicated. Please click on SAME's Privacy Policy for additional details. If you need assistance with your login and password, please contact SAME Member Services at member@same.org.
