SDOT - Values

Seattle is a thriving, equitable community powered by dependable transportation. We're on a mission to deliver a transportation system that provides safe and affordable access to places and opportunities. Our portfolio is vast. Beyond filling potholes and helping buses and freight deliveries run on time, we also pave streets, adjust traffic signals, create enjoyable public spaces, and build a network of bike lanes and sidewalks to serve people of all ages and abilities. And that's just part of our work. Learn more in our Move Seattle Strategic Plan.

We value equity, safety, mobility, sustainability, livability, and excellence. These things are our bread and butter and are at the forefront of everything we believe and do.
SDOT Values

Equity
• We believe transportation must meet the needs of communities of color and those of all incomes, abilities, and ages. Our goal is to partner with communities to build a racially equitable and socially just transportation system.

Safety
• We believe everyone should be able to move safely throughout the City. Our goal is to create safe transportation environments and eliminate serious and fatal crashes in Seattle.
SDOT Values

Mobility
• We believe transportation choices are critical to accessing opportunities. Our goal is to build, operate, and maintain an accessible transportation system that reliably connects people, places, and goods.

Sustainability
• We believe environmental health should be improved for future generations through sustainable transportation. Our goal is to address the climate crisis through a sustainable, resilient transportation system.
SDOT Values

Livability

- We believe transportation is essential to supporting daily life. Our goal is to manage our streets and sidewalks in a way that enriches public life and improves community health.

Excellence

- We believe in exceeding the expectations of the communities we serve. Our goal is to build a team committed to excellence and equipped with the skills to meet the challenges of today and tomorrow.

SDOT Capital Projects Division.

• The Capital Projects Division oversees all aspects of project management and engineering, construction management, environmental management, right of way and real property, and consultant contracting.

• Division Mission
  • Design, construct, maintain & operate safe and reliable transportation facilities
  • Capital Projects – Develop capital projects that are cost effective and meet the needs of Seattle’s citizens
SDOT Capital Projects Division

• 2019 Project Highlights for 2019
• 2020 Upcoming Projects
• Procurement – Consultant
• Inclusion - WMBE
