Standard Reports (Encl 6)
• **National Office:** Joe gave a brief update on the national office. Marv noted the [SAME National Governance & Management Org Chart](#) that is now housed on the governance page of the website. The chart shows the relationships between the board and the national office.
• **Finance:** Allison Ingram briefed the board on the general financial health of the Society. The Society has a net asset reserves of 10 months which exceeds the industry benchmark. Sixty percent of the Society’s projected revenue is from events. While it is healthy to have revenue from sources other than dues revenue, continued revenue diversification needs to be a priority. The investment account serves as an operating reserve and represents approximately 10 months of expenses. The investment portfolio is monitored quarterly by the investment committee. This Society’s investment committee also monitors the Foundation’s investments. Overall, performance is slightly below benchmark in an positive market, and exceeding benchmarks in a down market.
• **Strategic Partnerships:** Kathy Off briefed the board on existing partnerships and board expectations for strategic partnerships. Board members should be utilizing existing partnerships and evaluating ROI based on their experiences. She is adding points of contact to the web page to assist Posts.
• **Membership:** Jill Murphy briefed the board on membership trends, the departure from CLAS and pending recommendations to the XC and board. SAME Membership is trending upward, however, reforms to the individual membership structure will streamline Post Membership operations. Additionally, the new web-friendly database system will eliminate the old CLAS system and facilitate better communication to Post members and capture true members for better participation.
• **Communication:** Stephen Karl briefed the board on a forthcoming revised website design for SAME, communication updates, Centennial plans, and key messages for Board members to be aware of. The new website look will help constituents better showcase their work, tell their story and attract new members (whether they be C&C Chairs, AOF, or others). He highlighted communication tools to help us celebrate the accomplishments of members. He also reiterated the need for Posts to share information from the ground up so that we can demonstrate the impact of our strategic direction. This information feeds national efforts like the Annual Report and Society News, which are seen by all members. Additionally, he informed the board of recent/new initiatives including a partnership with JSTOR that has digitized the entire TME archives, which will be made available to all members through a members-only portal.
• **Meetings/Marketing/BD:** Ann McLeod briefed the board on meeting attendance trends, upcoming dates and locations. She also mentioned the improvements to marketing that have had a positive impact on the professionalism of the Society. Attendance has steadily increased for most events. Capital Week has declined slightly. However, there is a plan in place to invite congressional staff members for high-level discussions to greatly increase the impact of the event. It will also be co-scheduled again with the USACE Leaders Emeritus Program.
• **Centennial Task Force:** Bob Bevins briefed the board on the structure of the Centennial Task Force and stressed the need for volunteers to assist in the planning through all three phases: Run to 2020, JETC 2020, and the Eisenhower Convoy/Post Contributions. The overall goal is to leverage the Centennial by getting members involved in the planning and execution and remain engaged as a result of their positive experience.
• **Academy of Fellows:** Buddy Barnes briefed the board on progress on the Action Plan. His team is making great progress in accomplishing the tasks taken on in May 2018. He also asked for feedback on the new Operations Manual and the AOF Nominations Process. In January, he will publish the 2019 Goals & Objectives.

• **Foundation:** John Mogge briefed the board on the progress of the Foundation. They will be underwriting the Leader Development Program and will have fundraising efforts underway shortly. The Foundation Meeting was held on Thursday, Nov 1.

• **RVPs:** Heather Wishart-Smith briefed the board on the Strategic Plan 2020 Assessment and Strategic Plan 2025 Development. She outlined best practices of Posts within the five lines of effort. She identified some support needs to include more IGE Workshop and Strategic Partnership best practices. For 2025, RVPs would like to stay close to the 2020 Plan – but with more focus, balanced with Post customization. They would like to highlight the value of state/local agency support of national security, and stressed some of the IGE initiatives as a focal point for 2025. They also stressed the importance of keeping communications short and direct.

• **C&Cs:** Cindy Lincicome briefed the board on the Strategic Plan 2020 Assessment and Strategic Plan 2025 Development for Committees & Councils. The morning group identified some gaps in communication and a need for unified marketing efforts. The group identified what “right” looks like for 2020 as increased participation, ease of succession planning, and positive metrics provided through annual reports. Cindy also briefed the board on initiatives underway – specifically, the C&C Work Group who is tasked to streamline C&C efforts and develop an Operations Manual. C&C Chairs would like to be included in developing objectives and metrics for 2025 and would like to be lead authors for relevant sections. Additionally, the Resilience Committee determined that “resilience” is not the most appropriate term based on their current experience – this should be examined for the 2025 Plan.

**Strategic Plan 2025**

Marv and Joe announced the formation of a workgroup to develop the Strategic Plan 2025. The group will be led by Past President, Sal Nodjomian and Elected Director, Charlie Perham. They have asked for volunteer support to form a group of no more than 8 people total. The draft plan will be presented at the 2019 JETC BOD Meeting. The final plan will be presented at the 2019 SBC BOD Meeting. Strategic Plan 2025 will be implemented and rolled out in January 2020.

**Summary & Adjourn:**

At the end of the meeting, John Mogge asked the board if the format and information flow provided adequate process and information for the board members to fulfill their responsibilities to Society members. He reiterated what Marv had said – that the SAME BOD has a fiduciary responsibility to our members and the Foundation Board has a fiduciary responsibility to its donors. All agreed that it did. One board member noted that with RVPs on one side of the room and C&Cs on the other, that it limited inter-group information sharing. Groups will be dispersed better for the next meeting. A suggestion was made at the end of BOD Day that we produce a short summary of messages that BOD members can take to their constituents. That suggestion will be implemented at the JETC 2019 BOD meeting. The meeting adjourned at 1700 and board members made their way to the President’s Reception.

ENCLOSURE 2

Enlisted Committee Proposal

1. Recommendation: The BOD approves the establishment of the charter and strategic plan for an Enlisted Committee with representation on the board of direction. The recommendation emphasizes a departure from previous concepts by establishing an Enlisted Committee, not a demographic council whose purpose is to serve the demographic. Instead, this recommendation establishes a committee that is built on the right demographic, seeks to attract all interested members to serve the Society’s emerging line of effort, “Preparing Veterans for the A/E/C Industry”.

2. Background:
   • 2006 – NCO Council is chartered and led by CSM (R) Bill Arthur is NCO Council Chair, with a seat on the Board of Direction. (have not found official charter – phone con with Bill). Additionally, an NCO Symposium was hosted by SAME for several years.
   • 2013 – Appears to be the last time that the NCO Council has a seat on the board. No mention of disbandment in the minutes. Between 2006 and 2013, leadership was always retired senior level NCOs who had already transitioned to private sector.
   • 2016 – YMC (Lt Col Matt Altman) presented YMC Enlisted sub-committee TF successes to the board. Additionally, nobody could really answer why the NCO Council died and it was determined that a task force would be to explore the re-institution of an NCO Council. The task force was to be led by Bob Sidoti, Neal Wright, and Matt Altman. They were not able to produce any findings.
   • 2017 – Enlisted Committee Chair, SMSgt Adam Boubede, Tamara Olson, Sal Nodjomian, Jill Murphy, Kathy Off had an informal discussion about a stand-alone committee at SBC. Consensus was that support was needed from other branches besides Air Force (primarily Army and Navy). Additionally, there should be a plan to integrate enlisted into ongoing efforts of the society as opposed to segregating efforts.
   • 2018 – JETC – Lots of positive reinforcement for Enlisted Committee with the addition of senior enlisted Army and Navy support, along with a strong leadership team. The committee has generated a lot of excitement and energy among a young enlisted demographic to be connected to SAME as their professional Society of choice. They would like to propose having a seat on the BOD as a stand-alone committee which is open to all members.

3. Charter & Strategic Plan (included below)

There are two main reasons to support a charter for the Enlisted Committee:

1) The leadership of the committee is dedicated to incorporating the enlisted force into the SAME Strategic Plan, as opposed to being an insular club of enlisted members. The committee will be open to any members interested in supporting their goals. Contrary to the previous “Senior NCO Council,” the proposed Enlisted Committee was born from the Young Member Council with a clear mission to promote professional development for the Total Force enlisted community, integrate those members throughout the spectrum of SAME operations, advocate and engage support of SAME’s Strategic Plan, mentor enlisted members, and represent enlisted members in the Society.

2) The reach of the Enlisted Committee already extends to three of five Run to 2020 lines of effort and one Society Operational effort: IGE, Preparing Veterans for the AEC Industry, Developing Leaders for the Profession, and Membership Management. The current committee already has an aggressive membership campaign underway at the Post level. They are instituting best practices for unit mentoring and recognition and plan to use social media as an outreach tool to promote the value of SAME to the enlisted force.
The Society of American Military Engineers

It is the intent of The Committee that sitting Leadership Team members be fully considered for the Chair position, but the incoming Chair need not have served on the Leadership Team. The Chair may serve only one term. At the time of appointment, the nominee will become the Chair-Elect and work with the Chair to ensure a smooth transition.

The Vice Chair positions on the Leadership Team are appointed for a one-year term by the incoming Chair, after consultation with the current Leadership Team, based upon desire to serve, needs of The Committee, and the individual’s commitment to SAME programs. 9. **Assistant Vice Chairs.** Appointed, as needed, to assist respective Vice Chairs with performance of their responsibilities or fill in when the Vice Chairs are not available.

**Service specific liaisons.** Will act as representatives for each individual service branch and provide direct outreach to all enlisted members respective to each branch. Acts as the primary POC for service related enlisted issues. Works to enhance communication between The Committee and service specific personnel.

**Liaisons.** In addition to the Leadership Team, liaisons will be appointed, as needed, to facilitate communication and information flow between The Committee and the other key standing SAME Committees and Councils. Liaisons are expected to be active with their respective Committee or Council and proactively distribute information between that Committee or Council and The Enlisted Committee. Liaisons should provide updates during monthly committee meetings, or as needed, to ensure robust communication across the Society.

**Operating Guidelines**

- The Committee shall prepare an annual work plan; submitted in accordance with the Society’s bylaws. The annual work plan may include, but not be limited to, facilitating mentoring relationships between enlisted members and Fellows of the Society, assisting Posts with promoting enlisted programs, enlisted outreach programs to facilitate active involvement within the Society, and ensuring programs relevant to enlisted members are included in SAME Regional and SAME National conferences. National Leader Development (LDP) Task Force

1. **Recommendation:** The BOD officially establishes the National Leader Development Task Force. Termination of the Task Force, or transition to a national committee, will be upon graduation of the first National Leader Development Class at JETC 2020.

2. **Background:**
   - Historically, a few posts (primarily, San Antonio Post; Washington, DC Post following suit) have their own Leader Development Programs. The benefits of post level programs are significant, especially in terms of attracting military and government employee participation to utilize their leadership experiences.
   - At the national level, SAME participated for a few years in the Emerging Leader Alliance (ELA) program. The decision was made to pursue a SAME Leader Development Program tailored to our demographic and maximize value. The sentiment was that SAME has a strong and unique base of leaders upon which we can develop a robust and enduring program that not only links post LDP efforts within a national program, but that could evolve into a world class program that includes participants from throughout the A/E/C industry. This approach sets the Society on a course that is a critical component of our Strategic Plan and core to our unique contributions to the industry.
   - The BOD approved the National Leader Development Program as a major initiative of the *Run to 2020 and Beyond* (Phase I of the National Centennial Celebration), specifically, as a major component of the Developing engineering leaders for the nation strategic line of effort.
   - Additionally, the SAME National Foundation Board of Direction agreed to fund the National LDP program as a major program in support of the Foundation’s enduring purpose: “Fostering Engineering Leadership for the Nation”.
   - The LDP TF has been operating under the direction of Appointed Directors Caroline Roberts and Mike Darrow with active participation from various segments of membership.
   - The first student class of the National Leader Development Program will begin in 2019 at JETC and graduate in 2020 at JETC.
   - The recent XC “Governance and Management Review” approved the integration of Leadership Development as one of the cornerstones of JETC every year. Specifically, the concept is to dedicate one of the plenary sessions to Leader Development; have it hosted by the National SAME Foundation; and conduct the graduation and introduction of the new class at that plenary session.

3. **Task Force Charter:** The Task Force is progressing well and is on track to meet the major milestones. The Task Force Charter follows.

SAME Centennial Planning Task Force

1. References:
   
a. SAME Centennial Planning Task Force (dated 17 May 2017). At that time, the BOD envisioned using the Centennial Planning TF to assist with “reimagining” JETC. The goals of that BOD still apply, but progress has been made in improving JETC via improvements implemented in JETC 2017 and 2018 as well as the August 2019 XC Governance and Management Review.

b. SAME Centennial Planning Concept (dated 7 Aug 2018). The XC approved the concept at the 19 August XC meeting (ICW PLW).

c. XC Minutes (19 August 2018). Details of the Governance and Management Review.

2. Centennial Planning Task Force Chair: Effective 14 September 2018, CAPT Bob Bevins, Elected Director, has agreed to be the Chair of the Centennial Planning TF through May 2021. He will draft a standard SAME TF charter for BOD approval.

3. Centennial Planning TF Organization.
   
a. XC Oversight. The XC affirmed at the 19 August XC that the XC, supported by the BOD will be intimately engaged in overseeing the planning and execution of the SAME Centennial. Of importance is financially resourcing the Centennial (some aspects, outside of the National Office operational budget), especially given the overall intent of the three-year celebration (2018-2021) of energizing the society for the next century and special efforts (such as a Century Book, the reenactment of Eisenhower’s Convoy, and others) that will be required to make this a truly effective campaign.

b. BOD Participation. RVPs, C&C Chairs and the AOF play key roles in the planning and execution of the Centennial Celebration. BOD members, especially elected directors (those without specific tasks) will also assist by either serving on committees or recruiting committee members from the Society at large.

c. Post Level Centennial Coordinator. Posts have been directed to establish a new Post Board Position and report the names of the “Post Centennial Coordinator” at the Fall 2018 BOD meeting in New Orleans (SBC).

d. National Office Support. The entire National Office staff plays a part in the Centennial Celebration, hence the XD is the lead POC for the Centennial Planning TF Chair.

4. Task Force Formation. The Centennial Planning TF Chair and the XD will meet on 21 September to establish TF requirements. The TF Chair will provide BOD members with a read ahead document and finalize TF Formation on 30 October at the BOD. He will also update the BOD on progress to date.

The charter should be renewed periodically by leadership and the committee to ensure the chapter is carrying out the mission of SAME, the College Outreach Committee and reviewed by the National Officer who oversees committees and councils. A copy of the charter will be provided to the SAME National Office for information.

Propose that the BOD accept the Bylaws update proposal from the AOF to remain consistent with the approved AOF Action Plan of May, 2018. Additionally, propose that the BOD accept the Bylaws change for VSC, approved by the College Outreach Committee.
Financial Health

The metric for a healthy association is 6-9 months of Operating Expenses in Net Assets. Based on the current year projections SAME’s net asset reserve is approximately 10 months.

- Establishing new streamer criteria which aligns with the Strat Plan and Posts’ vision
- “Resilience” is not the most appropriate term based on the findings of the Resilience Committee and that a different term should be used in the 2025 strategic plan
