In December 2014, the SAME Board of Direction approved a motion to establish a National Foundation that would build upon the success of the Education & Mentoring Fund and enable a broad range of individuals and organizations who desire to leave a legacy in support of military engineering and our nation’s future.

The SAME Foundation is now a reality.

The SAME Foundation will serve to give back by paying it forward—to afford opportunities for Society members and for America’s youth; to enable professional development and to support personal growth; and to provide a means to recognize the passing of members through acts of memorial while helping Posts and partner organizations to inspire, develop and mentor the next-generation of STEM professionals and leaders.

America’s future is bright. Let’s help make it brighter.

Contributions for the SAME Foundation are currently being accepted. Visit www.same.org/donate for more information.
