

# LEED

# LEADERSHIP IN ENERGY AND ENVIRONMENTAL DESIGN

## INDUSTRY - GOVERNMENT

**LEED FELLOW (10+ YRS):** A nominated professional with significant knowledge related to sustainability. Provides extensive leadership, commitment, services, and advocacy for Green Building.

**LEED ACCREDITED PROFESSIONAL (3-5 YRS):** A recognized expert with an expertise in a particular LEED rating system. Provides and directs resources to successfully complete LEED Certifications for projects.

**LEED GREEN ASSOCIATE (2-3 YRS):** Demonstrating a continued commitment to Green Building, you will assist a LEED AP with documentation for Project Certification. LEED Green Associates use this time to study and determine which specialty to pursue.

**SUSTAINABILITY INTERN (0-1 YRS):** Learn the basics of Green Building through on-the-job and formal training while working on documentation for Project Certification. This is where you will develop your fundamental Green Building skills and knowledge through daily practice.
