# Today's Presenter

CDR Kurt Kesteloot kurt\_kesteloot@nps.gov

Field Services Branch, Supervisory Team Lead

Perhaps this should read "Today's Presenters" or just "Presenters" - our team is so much more than the five of us! Allen, Diana B., 2022-05-05T14:27:21.653 AB0

Mike Caldwell: Associate Director 202-513-7283

Bethany Barron, PE: Deputy Associate Director 303-870-1560

Karen G. Bergsma, PMP: Chief of Staff 202-746-4157

## Office of Public Health

The NPS Office of Public Health (OPH) is a unique "internal health department" within the National Park Service (NPS). The OPH protects the health of almost 300 million visitors a year as well as NPS employees through prevention and response services. The OPH also promotes the health and well-being of our park visitors by illuminating and encouraging ways to use our public lands for physical, mental, spiritual health, and social well-being.

THE 10 ESSENTIAL PUBLIC HEALTH SERVICES

To protect and promote the health of all people in all communities

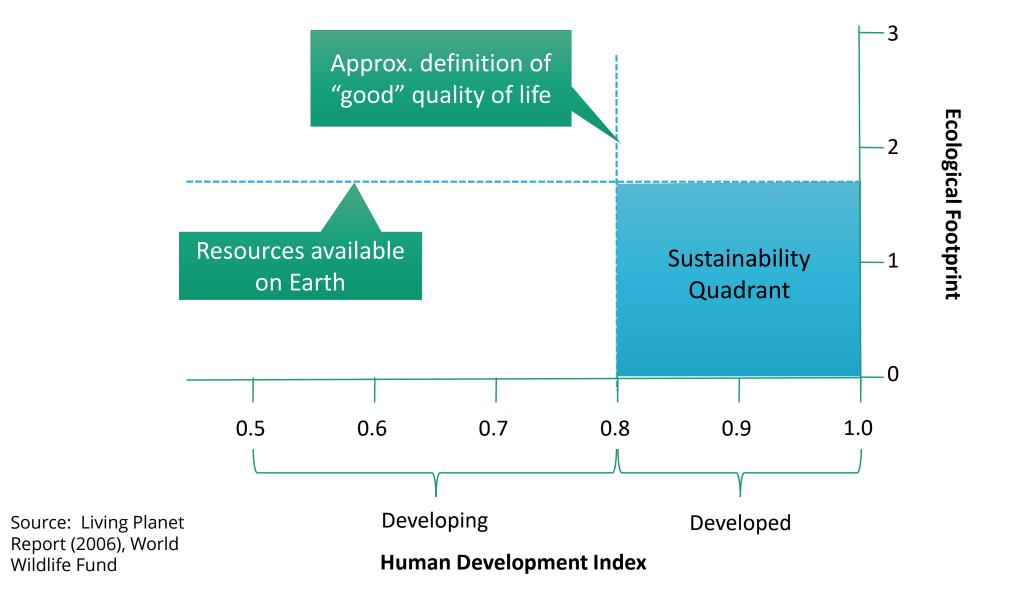

The 10 Essential Public Health Services provide a framework for public health to protect and promote the health of all people in all communities. To achieve optimal health for all, the **Essential Public Health** Services actively promote policies, systems, and services that enable good health and seek to remove obstacles and systemic and structural barriers, such as poverty, racism, gender discrimination, and other forms of oppression, that have resulted in health inequities. Everyone should have a fair and just opportunity to achieve good health and well-being.

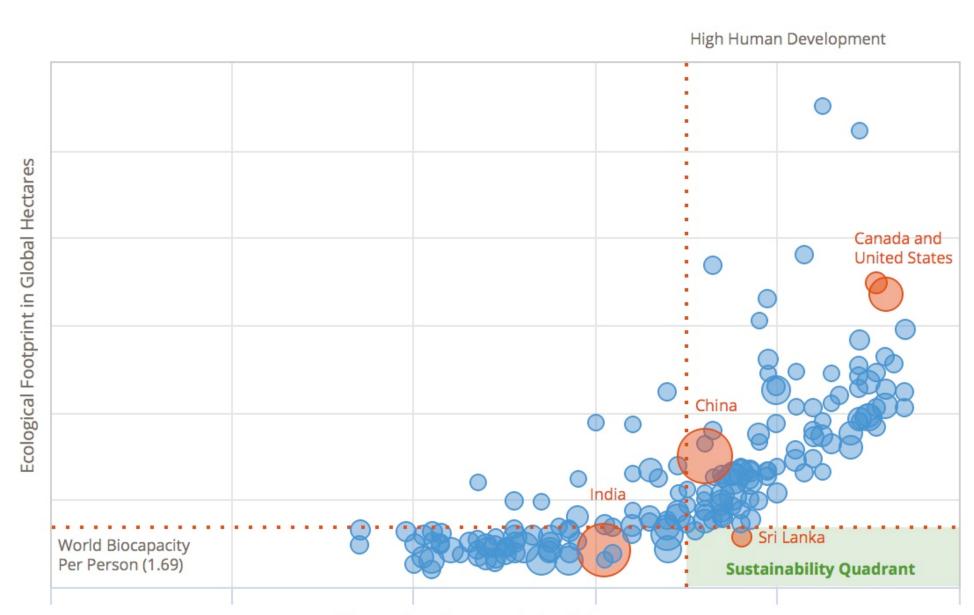

Sustainable development is...

...development that meets the needs of the present without compromising the ability of future generations to meet their own needs."

## Development vs. Resources

# Development vs. Resources

Human Development Index Value

#### **Changing Environment**

- What is the new "normal"?
- What are the possible extremes?
- Are there any new variables?

# Infrastructure's Role: Long-term

Highways, WWTPs 20-50 years

WW/WWTPS, Bridges 30-75 years

DW/WW Pipelines 50-100 years

Dams 50-100 years

### What can we do?

- Drinking Water
- Wastewater
- Food Safety
- Recreational Water
- Backcountry
- Disease Surveillance

EO 14057: Section 401: Engaging, Education,
And Training the Federal Workforce..."Agencies
Shall foster a culture of sustainability and climate
action; build employees' skills and knowledge
Through engagement, education, and training;
And incorporate environmental stewardship
Values and, where appropriate, sustainability
Goals and objectives into performance plans of
Executives, managers, and staff."

Encourage and recommend drinking water, wastewater, food equipment, etc. that have low operation and maintenance costs and are acceptable to the park and surrounding area regarding any impacts.

### What are other NPS programs doing to help?

- Project Examples
- Green Parks Plan
- NPS Climate Change Response Strategy
- DSC LEED/Envision checklist for contractors/projects

NPS DSC-ProjectSustainabilityChecklist 4-10-20 v508
