(\$500M)

CIVIL WORKS MISSION

Challenging and varied mission areas that include flood risk management, hydropower production, emergency management, ecosystem restoration, cultural resource protection, navigation support, and a robust regulatory responsibility.

(\$700M)

MILITARY CONSTRUCTION MISSION

Vital district function that provides design, construction, and revitalization of facilities essential to our Nation's defense. We routinely support overseas contingency operations by supporting and meeting the needs of our 2 military installations.

(\$250M)

ENVIRONMENTAL REMEDIATION

Important mission area that reduces environmental contamination risk by protecting human health and restoring damaged ecosystems. This essential program focuses on the cleanup of contaminated sites across a number of federal programs. Omaha District supports more than 550 projects across 41 states.

(\$450M)

SPECIAL PROJECTS MISSION

Agile and flexible program that provides cost-reimbursable support to other federal agencies in the field of homeland security and defense disaster and infrastructure response, and technical expertise in DoD fueling systems.
