2022 – Wednesday, February 2, 2022

New SAME DMP Members this month

Brian Lucas, Echo Company
Constructors

Matthew Guerin, RMH Group

Kristin Lum-Perreira, T1
Construction LLC

Brady Scott, T1 Construction LLC

Doug Wells, T1 Construction LLC

Greg Wilk, RA, AECOM

Nate Jones, Matrix Design Group

Bob Ellis, SEH

Christopher Alexander, SEH

Anna Vaughn, Tetra Tech, Inc.

Post Volunteer Opportunities

- Social Media development
- Assistant Secretary
- Centennial Celebration planning
- Planning Committee participation
- JETC 2022 planning

Questions

Today's Topic & Speaker:

Brigadier General Mike Willis, US Army, Ret.

Presents:

**Overview of Colorado Division of Homeland
Security and Emergency Management**

American Military Engineers State Emergency Management Orientation

November 12, 2021

COLORADO
Division of Homeland Security
& Emergency Management
Department of Public Safety

Five Mission Areas of Emergency Management

- ▶ **Prevention.** Prevent, avoid or stop an imminent, threatened or actual act of terrorism.
- ▶ **Protection.** Protect our citizens, residents, visitors, and assets against the greatest threats and hazards in a manner that allows our interests, aspirations and way of life to thrive.
- ▶ **Mitigation.** Reduce the loss of life and property by lessening the impact of future disasters.
- ▶ **Response.** Respond quickly to save lives, protect property and the environment, and meet basic human needs in the aftermath of a catastrophic incident.
- ▶ **Recovery.** Recover through a focus on the timely restoration, strengthening and revitalization of infrastructure, housing and a sustainable economy, as well as the health, social, cultural, historic and environmental fabric of communities affected by a catastrophic incident.

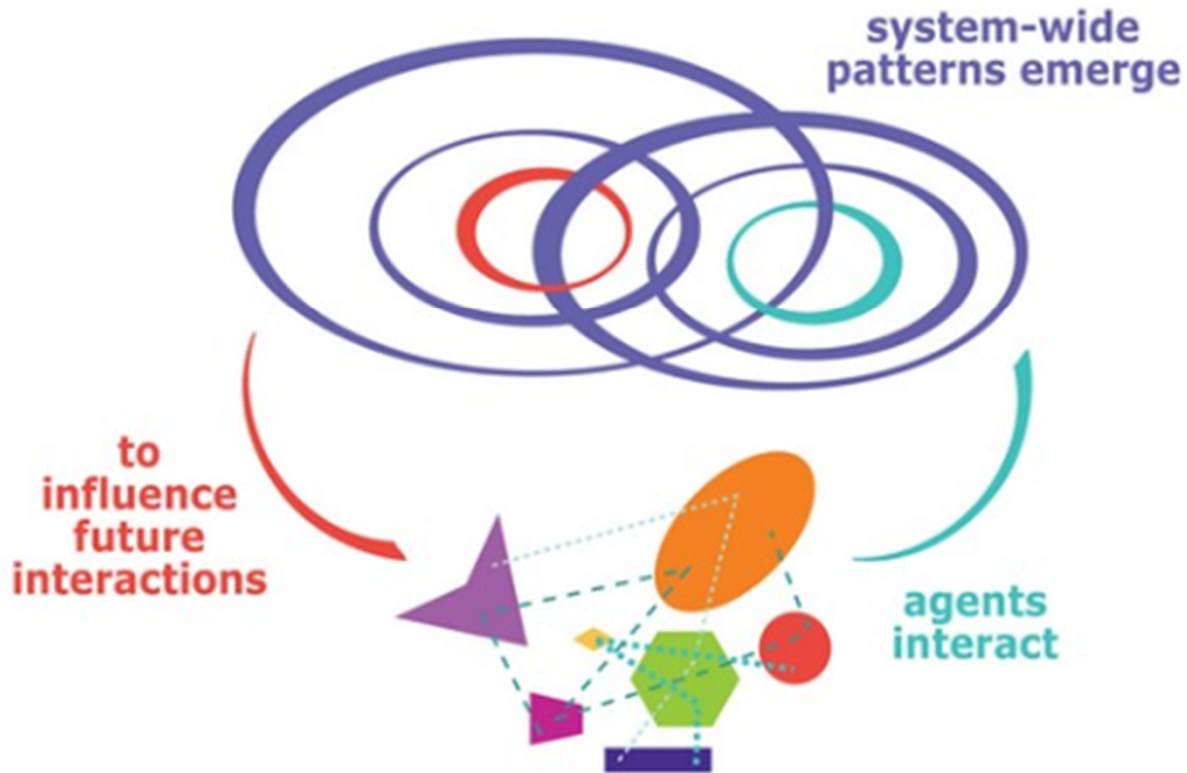

Whole Community approach Emergency Management

- ▶ Philosophical approach to all five mission areas
- ▶ Shared understanding of needs and capabilities
- ▶ Greater integration of resources
- ▶ Better relationships that facilitate more effective effort
- ▶ Builds trust
- ▶ Greater community resiliency

Emergency Management in a Complex Adaptive System

— Complex Adaptive System (CAS) —

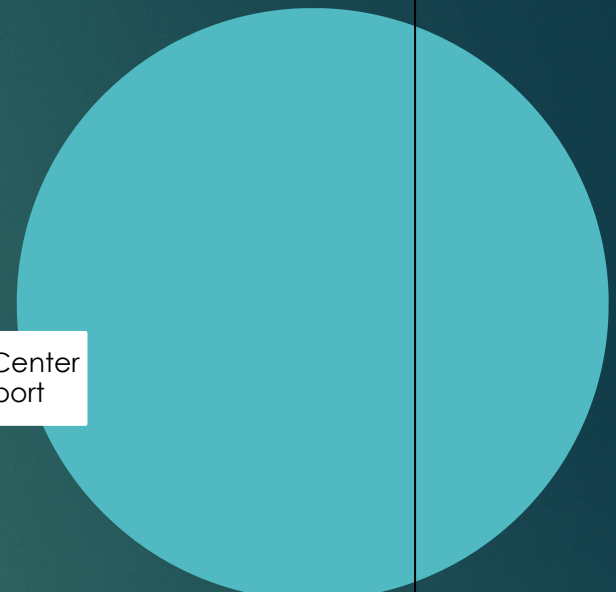

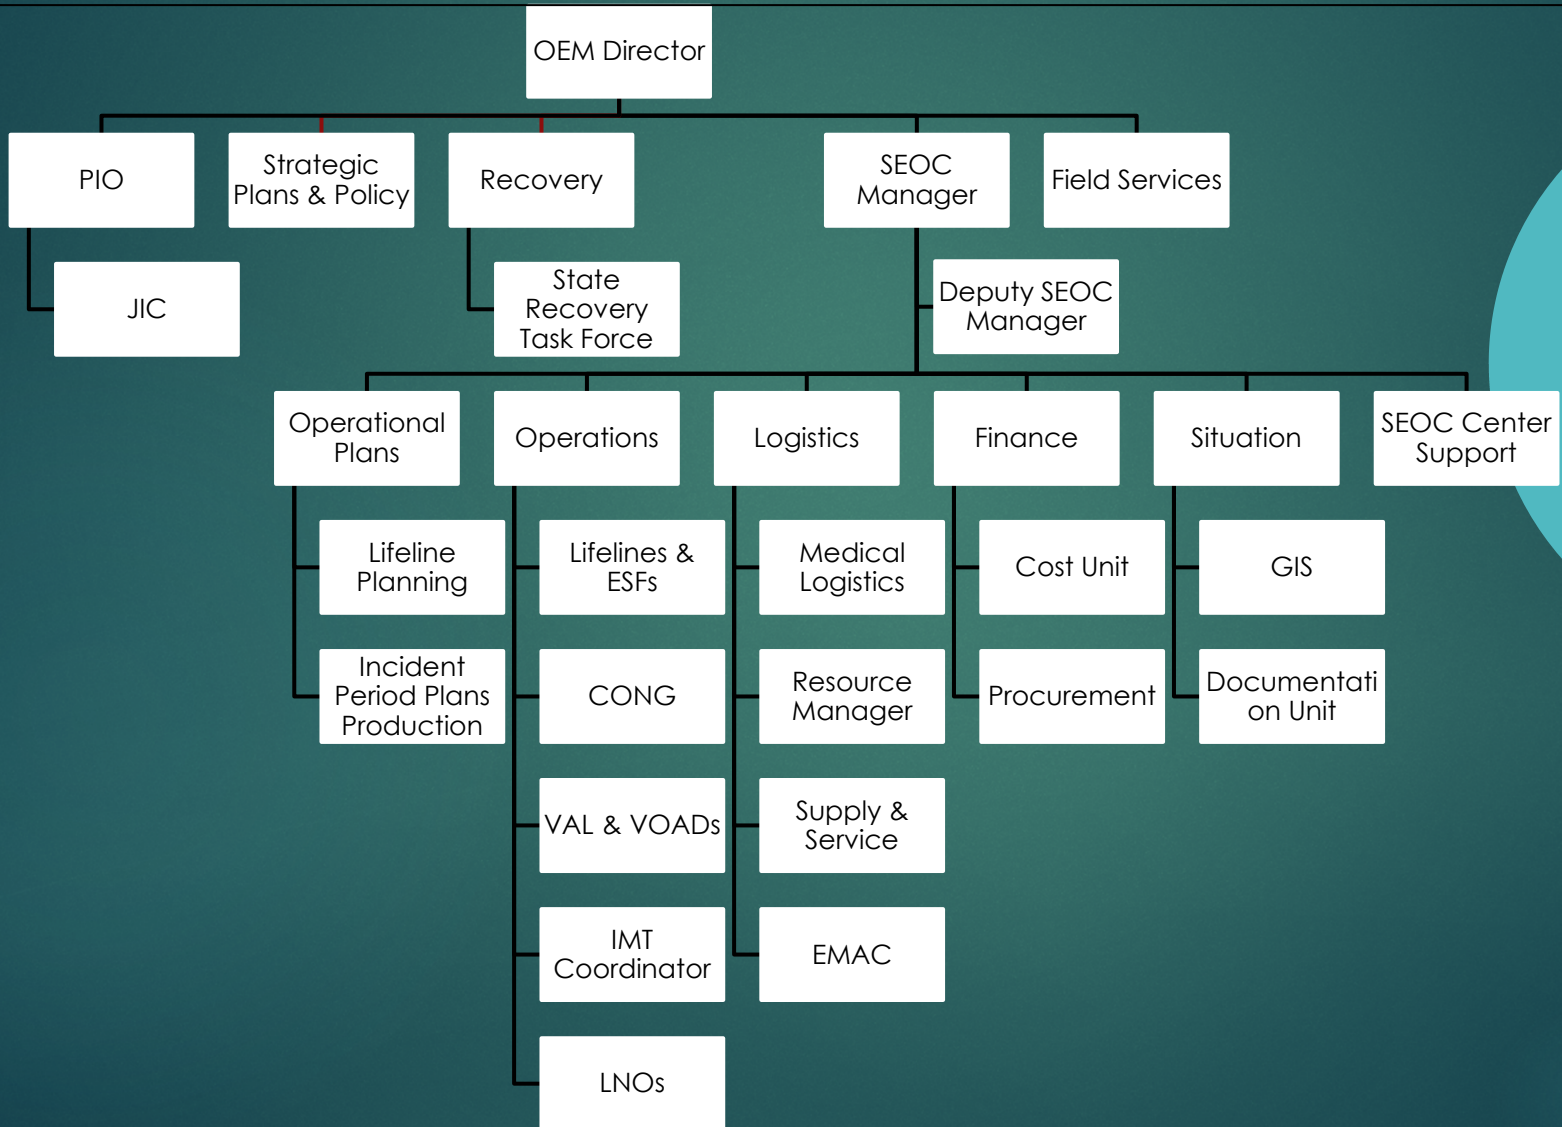

Complex Adaptive System: any system that consists of a large number of semi-independent groups (jurisdictions, agencies, organizations) who interact, adapt and learn in interdependent ways to produce system-wide patterns and behaviors.

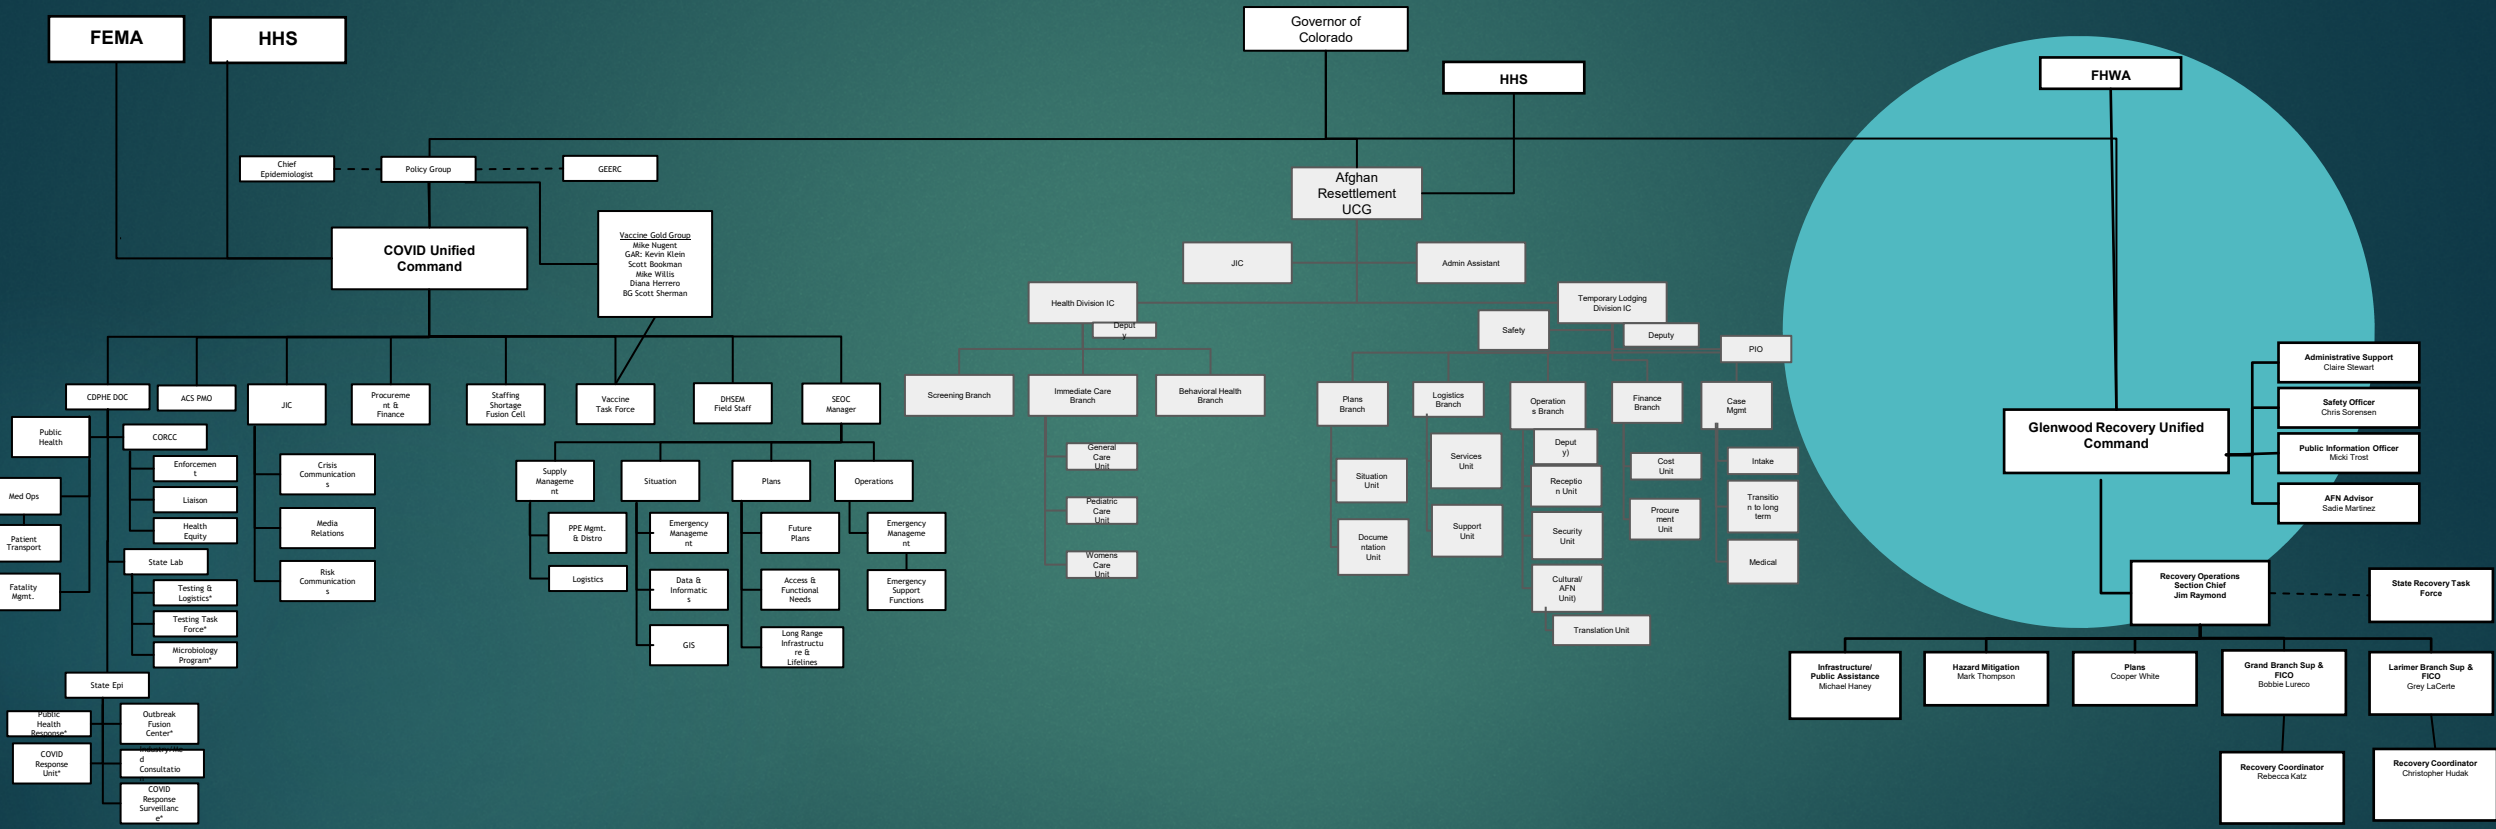

- Dynamic Interaction
- Unpredictable outcomes
- Same inputs, different outcomes, not repeatable

Can NIMS and ICS handle this??

Emergency Management Organization 2019

Emergency Management Organization Today

What does the future look like?

My two cents

- ▶ Multiple concurrent extended incidents
- ▶ Increased complexity
- ▶ Increased diversity in necessary partnerships
- ▶ Increased politicization of disasters
