

SUPPORTING YOUR MISSION LONG INTO THE FUTURE

# Siemens Federal Technology Day

Join us for a morning of education and networking on May 1, 2025.

[usa.siemens.com/federal](https://usa.siemens.com/federal)

Siemens leverages AI-driven optimization to help Federal agencies across the country make their facilities smarter, more resilient, and more responsive. Our intelligent infrastructure solutions enhance the way we live and work by seamlessly connecting energy systems, buildings, and the people who occupy them. These smart solutions capture and exchange data among automation control and multiple building systems, enabling Federal agencies to meet their energy, sustainability, and resiliency goals through connected and intelligent technologies.
