Introduction

➤ Who We Are

Woman-Owned Small Business

An agile team driving measurable results through a focus on compliance, accountability, and operational excellence.

Vision

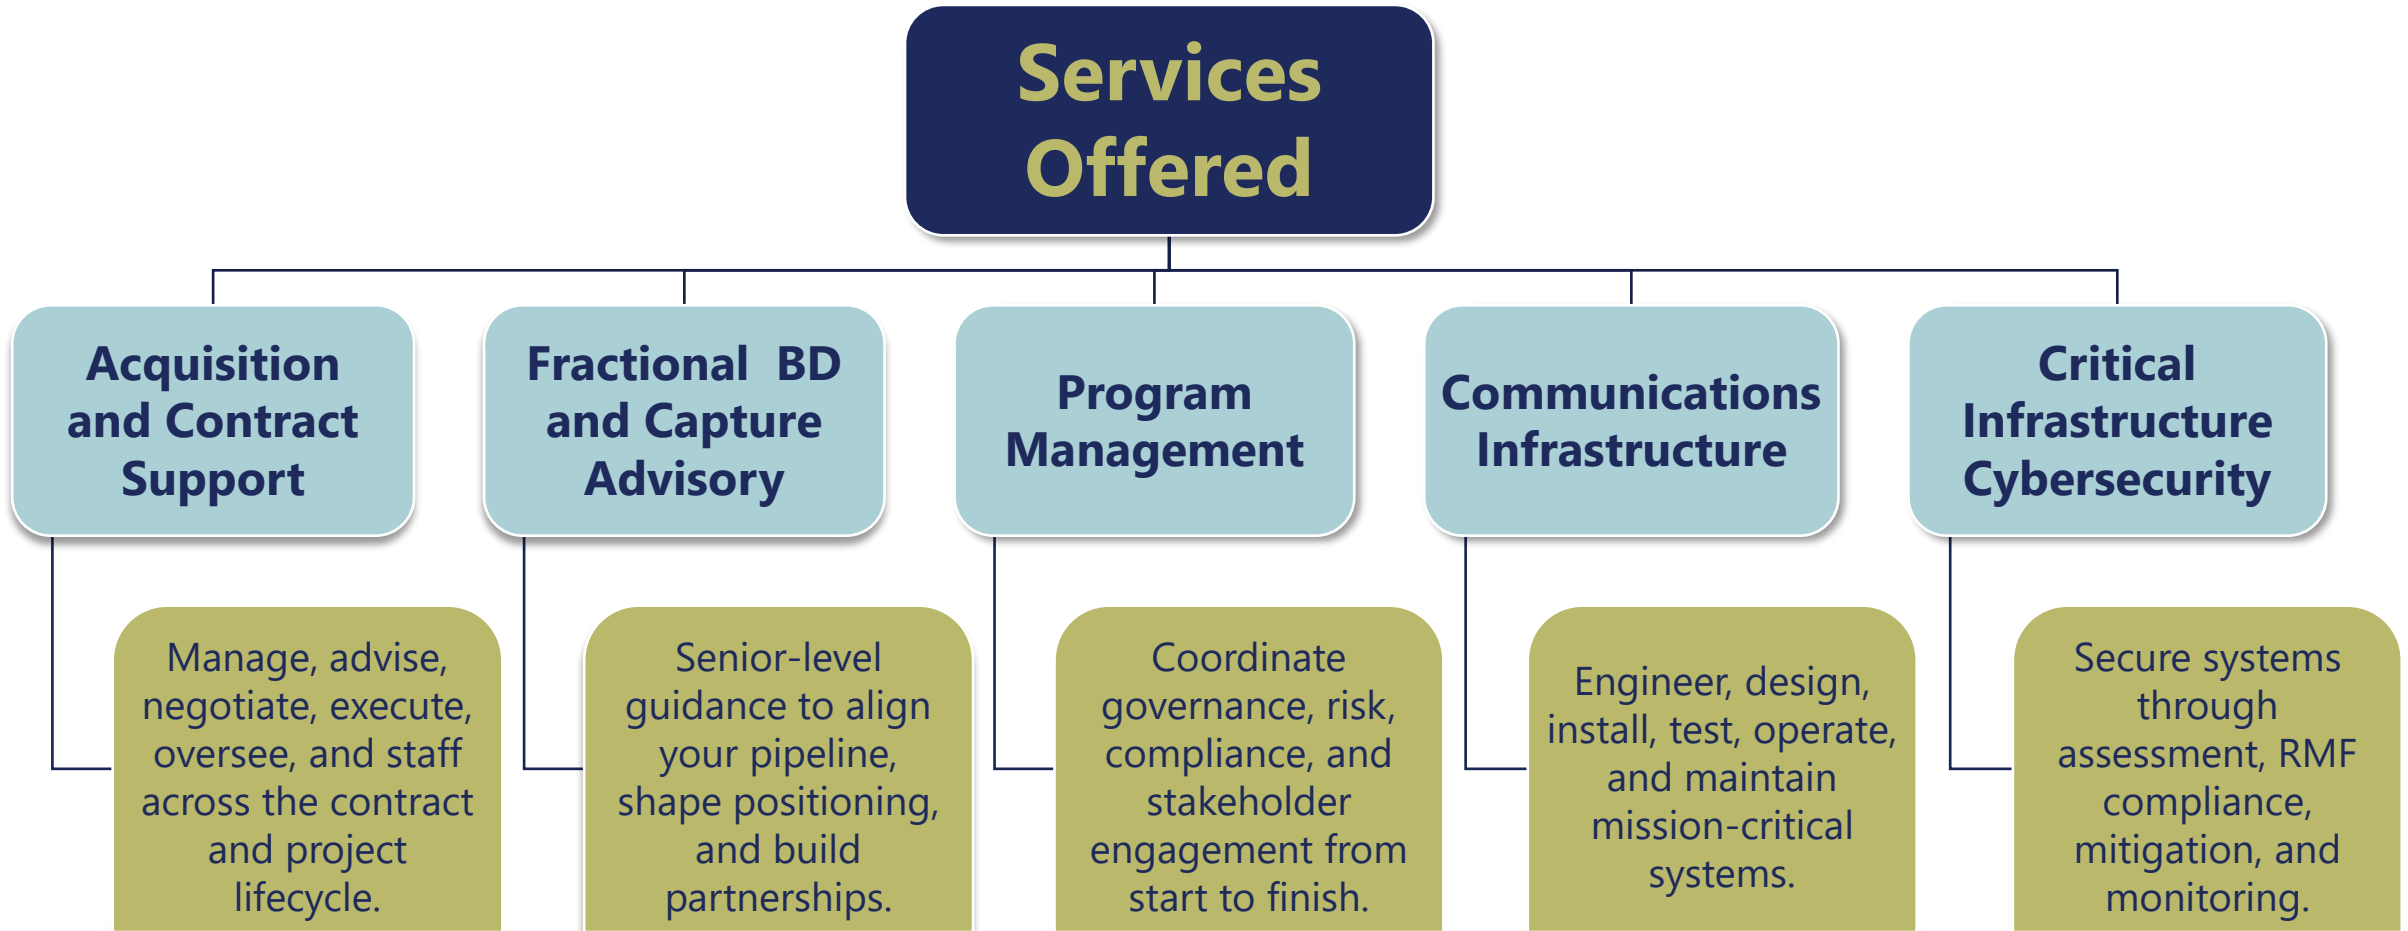

Innovating today to solve tomorrow's challenges with secure, mission-critical IT and infrastructure capabilities.

We Deliver

Mission-aligned acquisition, program management, and infrastructure expertise supported by a proven track record of results.

What We Do

Facility Related Control Systems Cybersecurity (FRCs)

Critical Systems Protected:

- Industrial and Utility Control Systems
- Building and Facility Management Systems
- Security and Safety Systems

Alignment with DoD Standards

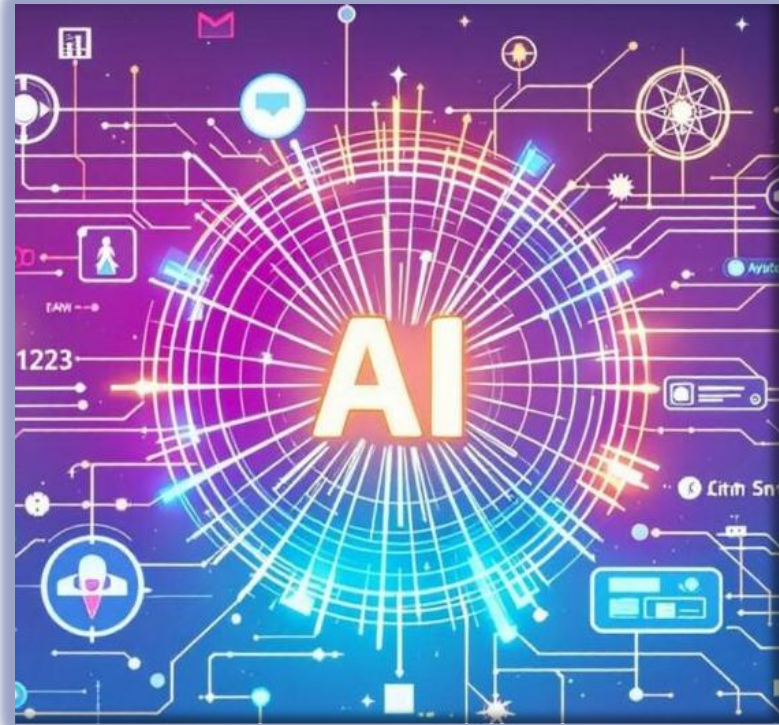

- UFGS 25 05 11: Cybersecurity Requirements
- UFGS 25 08 11: Risk Management Framework

Cybersecurity Services

- Program Design
- Asset Inventory
- Vulnerability Assessment
- Risk Management Framework Compliance
- Mitigation Implementation
- Continuous Monitoring
- Security Reporting

Emerging Tech: AI-Driven Data Standardization

Challenge

- Dispersed organizational data across multiple platforms
- Limited time and resources for data consolidation and analysis

Solution

- Leveraged generative AI to organize fragmented datasets to deliver 80% baseline accuracy, enabling Government SMEs to transition from manual entry to validation processes, resulting in 100% accuracy.

Results

- Delivery time cut by 55%
- Reduced manual labor by 50%
- Standardized data improved reporting, ensured consistency, and reduced errors
- Improved system interoperability and data-driven decision-making

Strategic Impact of AI in Government Operations

- Efficiency: Automated repetitive tasks, enabling faster delivery
- Accuracy: Reduced human error, ensured consistent outputs
- Scalability: Processed large data volumes with limited staff
- Cost Savings: Lowered long-term operational costs
- Innovation: Created new capabilities and insights for the agency

Why Choose CCI

➤ Our Value Proposition

- **Demonstrated Expertise**

- Deliver success in global, mission-critical infrastructure and cybersecurity.

- **Agile & Scalable Solutions**

- Adapt to complex client requirements with speed and precision.

- **Industry Leadership**

- Subject-matter expertise grounded in proven best practices.

- **Commitment to Excellence**

- Drive innovation that fuels sustainable outcomes.

Business Development Exchange

Discover. Verify. Grow.

Our Solutions

Smart Matching

Receive curated company matches every day based on NAICS codes, capabilities, past performance, and goals. No more cold outreach or endless database searches.

Verified Compliance

SAM.gov integration ensures every company maintains active registrations and certifications, giving you confidence in every connection.

Direct Messaging

Unlock secure, instant communication with mutual matches. Share capability statements, discuss teaming opportunities, and move from contact → collaboration seamlessly.

Network Growth Tools

Expand credibility and visibility through endorsements, community forums, event discovery, and interactive network visualizations.

The BDX Advantage

BDX helps businesses find, verify, and build trusted partnerships through data intelligence and AI-powered matchmaking – accelerating collaboration and leveling the playing field for growth.

We're building the future of government contracting — one defined by transparency, speed, and shared opportunity. By uniting compliance data, AI-driven insight, and a connected community, BDX makes trust the foundation of growth for every company in the GovCon ecosystem.

Why Choose BDX

Prime Contractors

Find the right partners faster.

BDX combines intelligent search, compliance verification, and relationship insights so primes can meet small-business goals and strengthen their teams with qualified, vetted partners.

Small Businesses

Level the Playing Field.

BDX gives small and emerging contractors the visibility and credibility to compete with confidence. Verified data, AI matchmaking, and endorsements help you connect with the right primes and partners faster.

Trade Associations

Empower your members.

BDX empowers trade associations to boost member engagement through verified data and AI matchmaking — transforming traditional networking into tangible partnerships.
