# WHO WE ARE

## BALTIMORE POST

As one of the Society of American Military Engineers' most active regional posts, the SAME Baltimore Post unites industry partners, government agencies, and emerging leaders to strengthen national security and shape the future of the built environment. Our monthly programs, technical workshops, networking events, and community initiatives all work together to support professional growth and drive impact throughout the region.

Your sponsorship is what keeps this mission moving. Each contribution directly supports scholarships, student outreach, and development programs that prepare the next generation of A/E/C leaders. In 2025, we awarded 10 scholarships at \$3,500 each, and we're aiming even higher this year.

When you partner with the SAME Baltimore Post, you're investing in the future of our community and our profession.

## SAME Baltimore Post
