REVOLUTIONARY FAR OVERHAUL (RFO)

Two Phases

- PHASE I: Implemented by DoW Class Deviations (Four FAR & DFARS drops, 1 Feb – 16 Mar 2026)
 - Simplifies and streamlines the Federal Acquisition Regulation (FAR)
 - Removes most text not required by statutes or Executive Orders
 - Written in plain language
 - Create a faster, more agile, and mission-focused acquisition system
 - Agency-specific regulations align with the streamlined FAR: DFARS, AFARS, UAI/UDG
 - Implemented in two parallel tracks:
 - Track 1 - FAR Rewrite
 - Track 2 - Key content included in nonmandatory, nonregulatory Practitioner Albums, FAR Companion, Buying Guides
- PHASE II: Formal Rulemaking
 - Formal notice of RFO will be published in the Federal Register to solicit public input
 - Once rulemaking is complete, the streamlined FAR will be codified
 - The Office of the Federal Register has published a guide to the Rulemaking Process

REVOLUTIONARY FAR OVERHAUL (RFO) HOW DO I ADAPT?

12

Read the RFO Parts and DoW Class Deviations that have been issued that relate to your procurement

Review the “Practitioner Album” for each RFO FAR part. This album provides:

- Change Summary
- Line out: NOT track changes, will not show where information moved or what was added, only what was removed
- Smart Accelerators: actionable ways to maximize use of the new Strategic Acquisition Guidance framework

Use the RFO “FAR Companion” with the RFO FAR (similar to the DFARS PGI concept):
