

Q2 2026 SAME OKC POST NEWSLETTER

The SAME Oklahoma City Post is proud to carry the momentum of a strong first quarter into Q2 2026. From packed luncheons to hands-on STEM events, our members showed up and made an impact across the region.

IN THIS ISSUE

- **Monthly Luncheons & Programs**
- **2026 Event Save-The-Dates**
- **2026 Sponsor Recognition**

A LOOKBACK: Q1 2026 HIGHLIGHTS

The Oklahoma City Post hit the ground running in 2026. Our January luncheon featured a standout presentation from Captain Robert Burton, retired U.S. Navy Civil Engineer Corps officer, who shared an engaging overview of the U.S. Navy's mission, global presence, and evolving role in national security. February and March kept that energy going, with great turnouts for presentations from Chad Meisenburg on Oklahoma City's 2025 Bond Program and Sara Hinds from Tinker AFB, drawing strong engagement between industry and government members alike.

On the STEM front, Q1 was equally active. Volunteers supported three MATHCOUNTS regional competitions leading up to the March 7 State Competition, and served as judges for Wacky Wonder Works during National Engineers Week at the Science Museum of Oklahoma.

The Young Professionals group also turned out strong for the hard hat tour of the Guernsey Mass Timber Office in early March, capping the evening with a happy hour at Fassler Hall.

Q1 was a quarter worth celebrating, and we are looking forward to many more great events in Q2!

PROGRAMS, LUNCHEONS & ENGAGEMENT

April Luncheon

Friday, April 17

OG&E Peaking Plant Tour

Hard hat tour of the OG&E Peaking Plant providing a behind-the-scenes look at peaking plant operations.

May Luncheon

Friday, May 15
