

Society of American Military Engineers
2026 Missouri River JETS

BETTER TOGETHER

Advancing Readiness, Resilience, and Results

SAME

**Environmental Community of Interest
(ECOI)**

SAME Environmental Community of Interest (ECOI)

Monthly ECOI Call

First Thursdays

1200–1300 ET

Hosted on [Teams](#)

Meeting ID: 264 264 582 944

Passcode: tGxHRy

ECOI Contact

Ann Ewy, ECOI Chair

annewysame@gmail.com

- The ECOI advances SAME's mission by driving **partnerships, solutions, and professional development** across the environmental community.

We connect SAME Posts, DoD, and Federal Agencies to

- Explore innovative environmental technologies
- Navigate evolving regulatory requirements
- Strengthen industry-government collaboration
- Support environmental readiness impacting national security

How We Deliver Value

- Educational Webinars & Technical Exchanges
- Networking & Industry-Government Engagement
- JETC, SBC, and Capital Week Programming & Participation
- Post Support & Cross-Community Collaboration

What we are doing...

- Webinars
- 10-min Spotlights
- Travel Stipends
- Industry Government Connections
- Ad-hoc Support
 - USEPA R2/San Francisco Abandoned Mine Cleanup Information Exchange
 - Regional Industry Days

SAME ECOI Webinars

Date	Title
Apr-26	Solving Complex CVOC Problems with ISTR - Field Proven Approaches
Jan-26	Preliminary Assessment and Site Inspection Process for Sites with General Radioactive Materials
Oct-25	Sediment Remediation – Dredging, Dewatering, & The Future
Jul-25	Controlled Hydraulic Fracturing for Delivery of mZVI in Low Permeability Settings
Apr-25	Accelerating PFAS Site Characterization/Remediation via Adaptive Strategies & Technologies
Jan-25	Identifying and Solving Vapor Intrusion Problems at Military Sites-- State of the Practice
Oct-24	Creation of Sustainable and Affordable Continuous ISCO Reactive Zones
Jul-24	Environmental Sequences Stratigraphy (ESS) in Practice
Apr-24	How Passive Samplers can Optimize and Reduce the Costs of Environmental Sampling Programs
Jan-24	Decades of Thermal Remediation: Breakthroughs & Challenges
Oct-23	NEON: Data and Infrastructure to Understand Changing Ecosystems
Jul-23	Utilizing Magnetic Resonance Geophysics to Inform Site Investigation and Remediation
Apr-23	Post NEPA Environmental Management and Compliance: Soil and Water
Jan-23	Climate Resilient Remediation
