Field Club of Omaha, 3615 Woolworth Avenue, Omaha, NE

Educational Program:

**“PFAS Soil Remediation – Rapid Leaching Technology
And It’s Applicability to MILCON”**

Shaun Malin

Principal and Director of Strategic Development, HRP Associates Inc.

Polyfluoroalkyl (PFAS) have high chemical and thermal stability leading to long environment lifetimes and are commonly referred to as “forever chemicals. Remediating PFAS is vital to sustaining defensive readiness. Mr. Malin provided a discussion on the Rapid Leaching Technology and how this can be applies to the Military Construction Program.
