

PCF™

PERFORMANCE CONTRACTING & FUNDING PROFESSIONAL

INDUSTRY - GOVERNMENT - MILITARY

REGIONAL ENERGY MANAGER (26-30 YRS): A certified PCF™ with 20+ years of experience, lead an entire organization's energy project funding strategy and performance contracting portfolio.

INSTALLATION ENERGY MANAGER (21-25 YRS): As a certified PCF with 10+ years of experience, lead performance contracts and alternatively financed energy projects for co-located facilities for an installation, city, or university.

ENERGY PROJECT MANAGER (16-20 YRS):
Evaluate and structure funding options such as performance contracts, loans, leases, PACE, and on-bill financing. Present business cases. Maintain your certification.

ENERGY PROJECT SPECIALIST (9-15 YRS): With 8 years of performance contracting or energy project funding experience, you can complete an approved PCF training program, PCF Application, and PCF Examination. Current CEMs are also eligible. If not eligible for the PCF, you may take the PCF In-Training (PCF-IT) certification in the interim.

PROJECT COORDINATOR (5-8 YRS): Support energy project development with cost estimates, utility data, and contract documentation. Continue working toward bachelor's or associate's degree.

FIELD SERVICE TECHNICIAN (0-4 YRS): Apprentice-level trades technician supporting facilities maintenance such as mechanical, electrical, or plumbing systems, and industrial control systems. Working toward a general or energy management associate's degree.
